Mars Will Teach Us
McAdoo's 400

THE STOCK MARKET had a fainting fit yesterday because the bonus bill went through. Railroad and other shares fell, and speculators had the blues.

They showed similar lack of intelligence when they declared that the Federal Reserve plan would ruin everybody. The Federal Reserve prevents panics and has already saved this country from at least two old-fashioned "black Fridays."

DO INTELLECTUAL gamblers that sell railroad stock believe that handing one hundred and fifty millions to the soldiers in the coming year will diminish railroad travel and ticket buying? Don't they know that every dollar given to the soldiers will go into circulation and help business? Do they imagine that J. P. Morgan, Thomas F. Ryan and the Vanderbilt boys buy all the railroad tickets and keep prosperity alive all by themselves?

SENDING photographs by wire is at last perfectly successful. That will mean more to the education of this earth than we can realize now. Merely gratifying curiosity or capturing criminals by telephotography on this little planet isn't the important thing.

What can be done here on wires can be done through the ether that separates this earth from other planets in our family.

We shall get from these planets radio portraits showing faces of their strange inhabitants and radio "blue prints" from Mars showing us how to dig canals to store the waters of the oceans when frost, rain and attrition make this earth perfectly round, leaving no natural cavities to hold the water.

If the earth were absolutely round, as it will be in a few million years, the ocean would cover it about a mile deep everywhere. We must know how to prevent that. Mars, tens of millions of years older than earth, will teach us by radio.

IF THAT sounds preposterous, remember what you would have said twenty years ago if you had been told that a preacher in Chicago some day would be heard in Los Angeles and Newfoundland in the same second.

McADOO, it is said, has already more than four hundred Democratic delegates. That indicates that he alone at this moment has any chance to get a two-thirds vote, if his men prove loyal. On the other hand, it is said that Mr. Cox, who once ran (very gently), has arranged with "Al" Smith a scheme to eliminate McAdoo early in the convention.

THE average Democrat will be interested in the Cox-"Al" Smith plan because it will alienate from the Democratic party the great railroad and other labor support which belongs to McAdoo and that no one else could bring into the campaign.

No man ever ran for President with the labor following that McAdoo possesses.

REPUBLICANS, Democrats and Independents may be interested in the statement, made on good authority, but not vouched for here, that La Follette

WIFE GIVEN TO RIVAL BY ARTIST

Then Other Man Is Arreste Having Declined to Marry Woman in Case

By HAROLD R. HALL

The story of how her hu band, one of the most prom inent artists in the Unite States, divorced her quietly s that another prominent artis might marry her and thus aton for an alleged wrong, was tol today to the Boston America by Mrs. Martha Jeanne Ron delle Smith, herself an artist.

Mrs. Smith was divorced on Apri 14 in Lawrence Probate Court by her husband, Howard E. Smith. The "other man" in the case, according to Mrs. Smith, is Aldro T. Hibbard, nationally known artist of Rockport.

But, according to Mrs. Smith, Hibbard was the only member of the "triangle" that failed when it came to the test.

She charges he refused to marry her after her husband had made the pathway clear.

As a result she has had Hibbard arrested. His case came up in Salem Court and he is out on bail of $1,000.

SACRIFICE FOR LOVE.

While the artist colony of Boston and Gloucester had heard vague rumors that an "eternal triangle" was in the making, not even her closest friends knew that Smith had secured a divorce and that the vivacity of Mrs. Smith was covering a broken heart.

Charles Quinn, twenty-two years old, of No. 710 East Eleventh street, Kansas City, is at the City Hospital suffering from concussion of the brain, received when he was knocked down in one of the amateur boxing bouts at the Boston Arena.

His condition is not serious according to hospital authorities. This is the third accident received by amateur boxers at the Arena within a month.

On April 22 Michael Molinari, eighteen years old, of No. 112 George street, Roxbury, was knocked down in an amateur bout there. He received concussion of the brain from which he died at the City Hospital.

The same night Walter Donovan of the West End, received a broken ankle in the bouts.

ASKS PROBE OF NEW FEE IN BANKS

Senator Hennessey Demands Investigation of Charge for Small Checking Accounts

An investigation by the Bank Commissioner of the Boston Clearing House's new rule, imposing a charge of $1 a month for handling small checking accounts, was asked today by Senator William I. Hennessey of Dorchester, in an order filed in the Senate.

Senator Hennessey, charged that "banks of the city, state and nation have been slowly but surely absorbed by certain interests whose only ambition and desire are to control and direct the wealth of this country. It is an unseen power, ruthless and destroying when opposed."

The new regulation that would impose a charge for checking accounts under $300 is "a fulfillment of the prophecy made by certain bank officials that when small banks were eliminated, the large banks would refuse to pay fair interest rates," the Senator declared.

The bank commissioner, if the order is adopted, will determine also whether the charge is justifiable and will report to the Senate on or before next Monday.

A hint that certain smaller banks in Greater Boston, opposed to the new clearing house rule, may establish a clearing house of their own

RED SOX READY TO GO AFTER LEAGUE LEAD

By NICK FLATLEY

Killing a Tiger with a club just naturally has to produce plenty of yowling and clawing and fighting. There's to be all of that and more at the Fenway today, if the weather relents. The Red Sox club is being swung once more on the Detroit Tiger, and that animile objects seriously to the performance.

This really can be the largest baseball day Boston has known for years and years. The Red Sox have a chance to creep up within half a game of first place, the first opportunity of the kind that has been known here—after the opening week of the campaign — since the 1918 Sox won the pennant.

Jack Quinn

After five lean years, Boston fans really have something to get excited about. They have a real ball club, off to a start that indicates that it will get somewhere. No team can be within a game of the pinnacle after a five weeks' campaign without packing a lot of real class.

The new Boston Red Sox, admit-

BOSTON GIRL TO WED JAPANESE, DESPITE ALL 'BUNK' OBJECTIONS

SHE WILL DEFY HER PARENTS

Continued from First Page

lustrator, of No. 52 Reed street, Roxbury.

"My parents object to the marriage—my girl friends don't like it—but I'm going to marry him just the same, because I love him. So that's that," and the young artist jabbed a brush viciously on a palette by way of emphasis.

Miss White's father, Francis H. White of No. 184 Locust street, Danvers, near the Topsfield line, stated that he knew of the romance of his daughter and the Japanese.

He said that he had not given the matter much thought, but was of the impression that his daughter will not marry Matsubara.

The couple filed marriage intentions at City Hall.

The girl is the daughter of Mr. and Mrs. Francis H. White of Danvers and is a graduate of the Danvers High School in the class of 1916.

The politeness of the Japanese art student while attending the Pennsylvania Academy of Fine Arts in Philadelphia, four years ago, won him the Occidental girl.

"I was studying in Philadelphia and dropped my book on the classroom floor" said Miss White.

"Mr. Matsubara, a member of my class retrived the book and returned it to me in the most charming manner imaginable. That was the beginning of our friendship.

"I discovered that a Japanese can be just as fine a gentleman—just as refined and educated, as any member of my own race.

"Our affair quickly ripened into love. Regardless of what my friends thought—and often said—I became engaged to Mr. Matsubara three years ago while we were still students in Philadelphia.

"Two years ago I came back to New England and opened a studio in Boston. My fiancee came to Boston a short time later. Boston is his home—he has made his home here since he was fifteen and he is now twenty-eight. We planned to get married and now the time has arrived."

"What about your parents? Your friends say they may disinherit you?" a reporter asked.

"Huh!" exclaimed the artist. "My parents don't approve of the match. They don't think it is right but they have told me that I am old enough to do what I want to and they won't interfere.

WILL CONTINUE WORK.

"As for them disinheriting me—well they don't have anything so that ends that little bit of fiction."

The young artists, a true product of Boston's Bohemian colony, declares that she and her husband will live in her little studio apartment and both will continue to work.

"If my girl friends don't like my marrying a gentleman from Japan—well—I'm sorry, but I know I shall be perfectly happy, so I should worry."

The reporter ventured to interrogate Miss White as to her views of the passage of the recent Japanese exclusion act by Congress.

"I don't think anything about it. I never have given the matter any thought," she replied.

PLAN BRIEF HONEYMOON.

The couple, according to the bride, plan to take only a brief honeymoon. They will visit New York and possibly the place where their romance budded in Philadelphia.

After graduating from the Danvers high school, Miss White came to Boston and studied at the Boston Normal school before taking up her art studies in Philadelphia.

She is engaged in commercial illustration work but is also regarded as one of the ablest young portrait painters in New England.

Matsubara is also regarded as an artist of recognized ability and his work has received much favorable attention throughout the country.

LANGS FRIENDLY, DESPITE LOVE SUIT

THREE POSES OF MRS. EDNA E. GALBRAITH TAKEN IN COURT

The Langs have been seen walking together during the past two weeks.

According to the testimony of two witnesses in the "love suit" against Mrs. Edna E. Galbraith, "movie" pianist, brought by Mrs. Catherine Lang of Dorchester for the alleged loss of the affections of her husband, Gerhardt W. Lang, Mr. and Mrs. Lang were seen together on Dorchester avenue and at Fields Corner.

George A. Fitzgerald of Dorchester said he saw the Langs twice at Fields Corner and the reason he saw them at that particular place on two occasions is "probably because he hangs out at the Fields Corner car station seven nights a week," according to his testimony.

Fitzgerald met Lang in Reno, where he went for his health, but he endeavored to obtain a divorce at the same time. Lang was then in the company of "Miss" Lang, otherwise known to Fitzgerald as "Mrs. Hawkes," he said.

Both sides rested their cases and the case is now ready for the jury.

MALDEN FIRE

Continued from First Page.

Boston, discovered the fire as flames streaked forth from the lower floor of the house which is opposite the Malden Hospital.

Attorneys Maurice Flynn and Dr. Joseph McGrath ran to sound an alarm, while Attorneys Maurice Welch and Daniel Hanlon and Daniel Breslin, a Federal narcotic agent, rushed to the burning Trebble home to awaken the occupants.

ENTERED BUILDING.

With smoke and flame swirling about them the rescuers made their way inside the dwelling.

The Trebble children and Miss Sullivan were awakened by the shouting below. The smoke was so dense they were unable to don outer clothing. All but William and Francis, the younger Trebble children, escaped within a few minutes.

Dr. McGrath and Attorney Hanlon carried the younger boys from the burning house to the outer air.

With the arrival of the fire department a squad of men was ordered into the cellar of the house when fumes of gas were detected.

DROPPED UNCONSCIOUS.

Four of them immediately dropped unconscious when they inhaled the gas. They were rescued by comrades and hurried to the Malden Hospital, where their condition is reported as serious.

The firemen overcome are: Deputy Chief William Chadwick, Lieut. Loren Keddie, Master Mechanic A. Wallace Keddie and Hoseman Henry O. Rounds.

The fire, it was discovered, started from an unknown cause in the kitchen. It worked its way through the second floor to the roof.

ASK BANK PROBE

Continued from First Page.

was heard at the State House today.

The Boston Clearing House is a private organization maintained by Boston banks. Its function is to reimburse Hub banks for checks they have cashed on distant banks. Then the Clearing House collects.

In reality, checks are balanced against each other from distant banks.

It does away with the necessity of each individual bank carrying on negotiations with any number of banks. This business is all centralized through the Clearing House.

CAUSES DISSENSION

Without a clearing house an individual bank would find it necessary to cash every check it has honored over the counter of the bank on which it is drawn.

The new Clearing House ruling has resulted in not a little dissension among many of the banks, it was learned today, and there are ample indications that many persons will withdraw their small accounts and deposit them in banks not subscribing to the "charge rule."

The new rule, in addition to charging for handling check accounts under $300, abolishes interest on these accounts. It also lops off the interest on the first $500 of every checking account up to $10,000. A person in order to get interest on his entire account, that is, including the first $500, must keep his deposit above the $10,000 mark.

KEITH OUT FOR STATE TREASURER

Horace A. Keith, retired Brockton manufacturer, has announced his candidacy for the Republican nomination for State Treasurer and Receiver General.

Horace A. Keith

For many years Mr. Keith, who recently disposed of his manufacturing interests, has been active in the counsels of the Republican party in the Bay State, but he has never held elective office.

For several years he served on the Republican State committee and was also chairman of the Republican city committee of Brockton for a period of years.

STOUGHTON PICTURE ACCEPTED BY STATE

A portrait of William Stoughton, acting Governor of the colony of Massachusetts in 1694, was presented to the State today by the Boston Athenaeum.

The presentation was made by J. Randolph Coolidge, president of the board of trustees of the library. It was accepted, at the request of Governor Cox, by Speaker B. Loring Young of the House. The Governor thanked the trustees of the Athenaeum, and a short address was made by Charles K. Bolton, librarian.

artist, Somerville and Walter H. Taylor, salesman, Malden.

Chester R. Fowler of Belmont, was named foreman by Judge Whiting.

The court allowed Coakley to ask each venireman if he had formed an opinion, discussed the case or was conscious of any bias.

Following the filling of the jury box, Judge Whiting addressed the jurors as follows:

"We are not here to congratulate or to sympathize with the jurors but merely to give instructions. The court wishes to remind you that the color, race, religion, politics, or fraternal affiliations of any person concerned in this case, has no place here.

WARNS JURYMEN.

"Any prejudice or opinion you may have formed has no place here. Public opinion, the statements in the press, are not to influence you. You are to determine the truth entirely from what you hear in this courtroom from the witness stand.

"I wish to caution you not to discuss this case among yourselves until it is completed, or with your families or friends or others. You must keep an open mind.

"If any person approaches you or follows you, you must pay no attention to them, but if they insist on trying to influence or overawe you or to coerce you or bother you in any way, it is your duty to report such an instance at once to the court and I will take proper action."

Clerk Bean than read sections of the two indictments whose reading had not been waived by the defendants, Coakley and Corcoran.

"GENERAL CONSPIRACY."

The first charged both with "general conspiracy, verbal and by writing and printed communication, threatening divers persons with crimes with intent to extort money or for some pecuniary advantage, with intent to compel such persons to do acts against their will."

The defendants waived the reading of nine other counts in this indictment, it was announced.

In the second indictment they are charged with "conspiracy to steal money from persons not specifically designated or known to the defendants."

BODY FOUND

death was caused through accident.

Young Proctor disappeared May 12 after he took a single shell from the Weld boathouse and started for his usual daily trip on the river.

Some time later all the students rowing were ordered off the water, as the varsity race was about to begin. Proctor was the only man who did not respond to the call.

A short time after, Sergeant O'Connor of the Metropolitan police discovered the empty shell. It was dry for what moisture a slight drizzle had deposited in it. The oars were locked in place and everything was "ship shape."

The river was dragged unsuccessfully for several days.

Mates of young Proctor at Harvard declared that he had been studying too hard of late and that he had complained of dizzy spells. To his roommate, he said he was going out on the river to "work off a cold."

failed to reveal the truth of the mental tragedy, according to Mrs. Smith. They show only that Smith secured his divorce on the grounds of cruel and abusive treatment.

He declared that his little wife had beaten him.

"No, it was not a beating by me that was the cause of the divorce," said Mrs. Smith.

HYPNOTIZED HER.

"My husband was simply wonderful to me. He stood by me to the very end and tried to make it as easy for me as possible. He has always been a wonderful man. And when he learned the truth he was still more wonderful.

"And Hibbard was shown up in his true light after the divorce. To tell the truth in this matter, the divorce was secured by my husband solely so that Hibbard could marry me. And Hibbard reneged.

"Hibbard seemed to be a wonderful person to me. He had me fairly hypnotized.

"Everything he said I believed. And he said so much.

"Why Hibbard promised practically the whole world. And I was fool enough to believe him. I was carried away by his promises.

SCORNED WHEN FREE.

Then Mr. Smith went about it all very quietly and arranged for the divorce. He secured it on cruel and abusive grounds. I was happy then, for the way was open for Hibbard to do his duty to me.

"Then I learned about Hibbard. In my lawyer's office Hibbard smiled and said that promises don't mean a thing in this world. That was the way he kept his word after my husband had been so wonderful to me.

"And now, here I am; I have no husband, no home and the man on whom I had pinned the whole world has gone back on me. Do you wonder that I have started action against him? What else was there left for me to do?

DEMANDS JUSTICE.

"A woman has to pay for her sins, but it seems as though the men get away with theirs easily.

"It begins to look as though there were no justice in this State for a woman. I am not a bad woman. I was just carried away by a man who painted for me a world such as a woman only dreams of. But the result has been that I have lost my husband and my sweetheart and am now facing the probable loss of my two children.

"But I am going to fight to the end for my children. I love them and I want them with me. And I am going to fight to the end against Hibbard.

I am ruined; disgraced; alone. He is still the great artist. He is not disgraced. Surely the law will not allow a man to trifle with a woman as I have been trifled with. Surely there is justice somewhere for me."
to me.

WAS SMITH'S PUPIL.

The romance of Smith and his wife began ten years ago when Martha Jeanne Rondelle was his art pupil.

In 1914 Smith and Miss Rondelle were married. It was in the month of December.

Despite the cold and snow, they went far into the northern part of Canada for their honeymoon. There the happy young couple spent their time together studying and painting Winter and snow scenes.

When they came back to Boston and Gloucester the artist colony named them the "honeymoon couple" for they appeared to be even more in love as the months and years rolled by. Their friends used to point to them as the ideal pair.

Both had the same interests. Both were good artists. Then came little Jeanne, she is now eight. Then came Jacquelin, she is now 4. And then, according to Mrs. Smith, came Hibbard.

Hibbard is a younger man than Smith. He is unmarried and was conducting an art school at Gloucester. Mrs. Smith says she was drawn to him there. And the triangle followed, she says.

FINDS GAS LEAK CAUSED BLAST KILLING 15

Coroner Raps Company for Removing Pipes After Manville, R. I., Explosion

Providence, May 21.—In a report filed in the Superior Court today Coroner Hugh M. Devlin finds that the explosion at Manville on the morning of January 28 last in which fifteen persons lost their lives was caused by illuminating gas which had seeped into the house through the ground from a broken drip pot in the gas main in front of the house.

"No one is criminally responsible for the deaths of these fifteen persons, or for this calamity," the report asserts, but the coroner takes the Pawtucket Gas Company severely to task for removing pipes and other apparatus from the scene of the explosion before they could be examined, calling the company's action improper.

After reviewing the circumstances of the explosion and the views expressed by experts, Coroner Devlin rejects the dynamite detonation theory and concludes by saying "from the facts disclosed the coroner cannot find that any individual or corporation involved has been guilty of such gross negligence as to render it criminally liable."

BAUER MURDER SUSPECT IS ABNORMAL, DECLARES ALIENIST

BUT HOFFMAN MAY STILL BE INNOCENT, HE SAYS

New York, May 21 (I.N.S.).—"I am convinced that Harry Hoffman is not normal, but that does not necessarily mean he is the murderer.

Dr. Bernard Glueck, noted psychiatrist, made this statement today in discussing the murder of Mrs. Maude Bauer on a lonely Staten Island road, for which Hoffman, a moving picture operator, is now on trial.

Dr. Glueck drew a parallel to the Stielow case of a few years ago, in which Stielow was convicted on circumstantial evidence, and afterward found innocent. He said the prosecution and the jury should be cautioned by what happened then.

TWO SUPPOSITIONS.

"There are two suppositions: Either Hoffman is the murderer, or he is an innocent man whose abnormal actions have caused him to stand trial for his life," Dr. Glueck said. "The evidence upon which the State will prosecute its case is circumstantial. Hoffman's actions to protect himself from suspicion. If he is innocent, his identification of himself with the person who committed the crime indicates a mental condition that is not stable, is hysterical and pathological."

Here, briefly, is the story of the crime of which Hoffman is accused:

Mrs. Maude Bauer was driving with her mother and two children on a lonely State Island road. The car mired at the roadside.

Mrs. Bauer, a charming young matron and a devoted mother, trudged through the mud to seek help.

SWARTHY MAN.

A swarthy man in the early thirties, wearing brown overcoat and hat and a pair of tortoise shell rimmed glasses, drove up in a sedan and offered Mrs. Bauer assistance and a lift to a garage. Half an hour later Mrs. Bauer's body was found.

The owner of the sedan had attacked her, struck her several times with the butt of a .25-calibre pistol, shot her twice and left her lying by the roadside.

The evidence against Harry Hoffman is given by the prosecution as this:

EVIDENCE GAINS.

He has been identified as a man who a year ago gave another woman a lift and then attempted assault, this woman charges. He induced his friend, Raymond Parker, to swear he was with him the afternoon of the murder, March 25. Parker finally confessed the alibi was false. A few days later Hoffman burned up the holster of a .25-calibre automatic pistol. At the same time he mailed to an address in the Bronx a .25-calibre pistol, with instructions to say it was mailed before the murder. Also he changed his clothes, color and cut. He had his "bushy" hair cut and exchanged his horn-rimmed glasses for nose glasses.

Barbara Fahes, the fourteen-year-old girl who saw the sedan-owner offer Mrs. Bauer the lift, talked of the murderer's twisted eyes. Hoffman has twisted eyes, and he owns a sedan. Shortly after the murder he tried to sell it for $165, and, failing, looked for somebody to repaint it.

IS ABNORMAL.

"Supposing that Hoffman is innocent," said Dr. Glueck, "his condition is none the less abnormal. Most of the evidence is, of course, circumstantial. That, however, does not make it any the less strong. But in every case of circumstantial evidence the prosecution and the jury should ponder and weigh the evidence with increased care and caution.

"There are two things for the jury to consider.

"The first is of course Hoffman's strange identification of himself with the man who is the murderer, and his reasons for attempting to throw off suspicion.

"Second, the possession of a pistol, and his alleged attack of another woman.

JACK DEMPSEY MAY WED ESTELLE TAYLOR

ESTELLE TAYLOR

Jack Dempsey has been furnished with another "fiancee" from the Hollywood movie colony. A couple of years ago it was all fixed by gossips that Bebe Daniels was to be the wife of the heavyweight champion, but somehow or other gossip was wrong. Now it is Estelle Taylor.

They have been prancing around quite a little and admit great fondness for each other. Jack says he has known Estelle since she was a kid, and Estelle says Jack is wonderful.

Otherwise there is nothing official.

FINE RESTAURANTS ON MILK CHARGES

As the result of a drive against low standard milk by the Board of Health, three restaurant keepers were before Judge Murray in Municipal Court today. The Waldorf System, Inc., No. 20 Hanover street, was assessed $25. The Touraine Lunch, No. 685 Washington street, paid $10 and Rose De Grand, operating lunch room at No. 778 Tremont street, also handed over $10.

DAUGHERTY SPY WORK CHARGED

Duckstein Bares Alleged Plot to Frame Wheeler and Steal Means' Diaries

Washington, May 21.—The Senate Daugherty Committee was told today that representatives of the Department of Justice not only had sought to "frame Senator Wheeler," but had spied on its members and its witnesses and had spirited away the diaries of Gaston B. Means, working with it as an investigator.

One of the witnesses was W. O. Duckstein, who said he knew about the whole proceeding because his wife is a secret agent of the department. It was she, he said, who identified in his presence the records of Means after they had been obtained by a ruse.

Duckstein, whose wife is a secret agent of the department and author of the famous "Mary" message that figured in the oil inquiry, then told the committee that a "crew of operatives," men and women, led by Walter Pettit, and a man named O'Brien and claiming to work under direction of Hiram C. Todd, special assistant to Daugherty, had been used to spy on committee members and witnesses.

He declared Pettit and O'Brien said they were "going to railroad Gaston Means to the penitentiary," and "frame Senator Wheeler," the committee prosecutor.

WOMEN IN "CREW."

"The crew" had women detectives placed in the Senate office building, Duckstein declared, and "wire tappers" to get conversations.

The Department of Justice telephoned to his wife several weeks ago, the witness declared, and said that "two men from New York" were anxious to see her.

Pettit and O'Brien then came to his flat, he continued, and said they had a letter from Todd in New York to Daugherty, arranging for their operations.

In a series of conversations, Duckstein said, Petit and O'Brien told him fully about their purpose.

Chairman Brookhart of the committee was also put under surveillance, Duckstein said. He did not know whether the espionage was still in progress. It started March 16.

"GOVERNMENT BY BLACKMAIL."

"O'Brien told me they had men in Iowa looking up Senator Bookhart's record, and men in Montana on Senator Wheeler," Duckstein said, "and were looking up all the members of the committee."

"I think the less attention we pay to this the better," remarked Senator Jones, Republican, Washington.

"I don't think so," Chairman Brookhart rejoined. "We'd better find out how far this government by blackmail is going to go."

Duckstein said it was Pettit and O'Brien who got the Means diaries, which the detective declared would substantiate his stories about money payments to Jess W. Smith, Daugherty's pal.

The two men, he said, called him and his wife out of their home at night, took them into an automobile and opened three suitcases full of "little black books," which Mrs. Duckstein identified as the diaries and files of Means.

The committee pressed the witness to say why he had not reported the incident.

"I considered them as co-workers with my wife," Duckstein said. "Pettit and O'Brien said they were going to take the papers to Todd in New York."

"Why did you finally tell Means?" asked Senator Wheeler.

"I had to," Duckstein replied, explaining that Means had got some of the facts and was "getting my wife into it."

Mrs. Duckstein, though employed directly under W. J. Burns, former head of the bureau of investigation, did not report the paper enterprise to her chief, he said, "considering it a matter coming directly under the Attorney-General."

Another witness, R. P. Burrus, a special Department of Justice agent, testified that he and five assistants, including a woman, had been assigned to "Shadow" Means for several weeks.

BAY STATE LIVING COST CUT 1 PER CENT

The cost of living in Massachusetts dropped about one per cent. in April, according to figures of the Commission on the Necessaries of Life.

Food was the largest item affected, showing a marked drop from February. Clothing also decreased, as did fuel and light.

DR. HEWITT INDICTED IN DEATH

Newburyport Physician Accused of Illegal Surgery in Ethel Taylor Case

Newburyport, May 21.—Dr. Arthur J. Hewitt, prominent Newburyport physician, was indicted today by the Essex County Grand Jury for alleged illegal surgery preceding the death of Miss Edith Taylor, superintendent of the Homeopathic Hospital.

Ethel Taylor

Miss Taylor died last November in the Gale Hospital, Haverhill, where she was taken after being found in a dying condition at the home of her sister, Mrs. A. D. Titcomb, No. 15 Mill street. The engagement of the nurse to Dr. Hewitt was to have been announced last Christmas, according to the physician's testimony at the inquest. He said he was the only man friend of the twenty-three-year-old nurse.

According to the girl's sister, the physician was with Miss Taylor the night before she was taken sick.

Albert Taylor of Conway, N. H., father of the nurse, has brought suit for $20,000 against Dr. Hewitt in connection with his daughter's death.

Five parcels of land owned by the physician in Newburyport have been attached.

'Lame-Duck' Senator to Get Reward for Anti-Bonus Vote

Washington, May 21.—United States Senator Thomas Sterling of South Dakota is to be appointed as assistant attorney general, according to reports in official circles here.

Sterling switched his vote on the bonus bill at the personal request of President Coolidge. He is a "lame-duck," having been defeated for renomination by the independent Governor of South Dakota.

Sterling had promised the veterans he would vote for the bonus.

There has also been a suggestion that he might be appointed Ambassador to Japan to succeed Mr. Woods.

RUM WORTH $5,000 SEIZED; 2 ARRESTED

Springfield, May 21.—Police officers early today seized a truck containing 576 quarts of high grade whiskey on the eastern outskirts of the city and arrested the two men driving it, who gave their names as Leon M. Kaufman, twenty-nine, of No. 1307 Orange street, and Morris J. Heffron, twenty-two, of No. 327 Madison street, both of Syracuse.

The liquor is valued at $5,000 and the truck at $2,000. The liquor is said to have been enroute from Providence to Syracuse, and from its wrappings in burlap bags is believed to have been obtained from vessels off the Rhode Island shore.

GARMENT STRIKE THREAT

Walkout in June Debated by 50,000 Workers in New York

New York, May 21.—The board of the Cloak and Suit Trades meets tonight to prepare for a threatened strike of 50,000 cloak and suit operatives on June 1.

The strike became imminent when negotiations between officials of the International Ladies' Garment workers' Union and the Clothes, Suit and Dress Manufacturers' Protective Association were broken off.

William Klein, counsel for the manufacturers, said the operatives' five demands were "not debatable." The rejected demands are for a 40-hour week, an increase in the minimum wage, guaranteed employment periods, use of the union label on garments and unemployment insurance.

Morris Sigman, president of the union, branded Mr. Klein's statement as "virtually an ultimatum and a declaration of war."

BENJAMIN HAS 'COMFORTABLE DAY' IN JAIL

Alimony Club's Latest Member Makes No Attempt to Get $5000 Bail

New York, May 21.—Park Benjamin spent "a comfortable day" in Ludlow street jail as the latest recruit of the Alimony Club housed in that institution.

His wife, Catherine Doremus Benjamin, daughter of the wealthy Dr. C. A. Doremus, and according to her own estimate, "reared in luxury," made no gesture of yielding as the hours passed and the father of her two children remained in jail.

NO ATTEMPT AT BAIL.

Neither did Mr. Benjamin appear especially eager to obtain the $5,000 bail required in the order of Supreme Court Justice Seeger of White Plains before whom Mrs. Benjamin appeared last week. It was at this time that Mrs. Benjamin told the court she was virtually penniless and compelled to work in a dressmaker's shop for $20 a week to maintain herself and two children.

At No. 940 Park avenue, where Park Benjamin and his present wife reside, the second Mrs. Benjamin reported "out" all day.

CUT OFF BY FATHER.

In other quarters it was observed that Park Benjamin was always been very close to his sister Dorothy, whose marriage to Enrico Caruso he sympathized with at the cost of permanent estrangement from his father, Park Benjamin, the eccentric and wealthy patent lawyer. It is pointed out in this connection that if Mr. Benjamin remains in jail it is of his own wish.

Also the first Mrs. Benjamin discloses that in spite of his father's legacy of $1, a settlement had been made on Park Benjamin of $20,000 by the middle-aged Anna Bolohl, adopted by the elder Benjamin shortly before his death, and made his heir.

Smart Set Plans Calico Ball to Aid Y. D. Auxiliary, Says Betty Alden

By BETTY ALDEN.

UNDER the inspiration of Joseph Lindon Smith, an amusing "Fish Ball" was staged last month to benefit the Children's Art Centre.

All manner of astonishing costumes suggestive of the sea and its inhabitants graced the occasion.

On Friday evening a "Calico Ball" is on the cards. A group of prominent folk out Cambridge way are arranging the affair at Brattle Hall to add to the coffers of the Yankee Division Auxiliary. Instead of the customary silks and satins, Dame Society will don a simple cotton garb for the occasion.

Mrs. Roger Wolcott, Mrs. Nathaniel Simpkins, Mrs. Clarence R. Edwards and Mrs. Robert Winsor, Jr., will be in the receiving line. The list of sponsors includes such well-known names as Mrs. Julian L. Coolidge, Mrs. Morton Prince, Mrs. Pierpont L. Stackpole, Mrs. Barrett Wendell and Mrs. Ralph Lowell.

A CORPS of attractive girls will aid in serving tea at the terpsichorean treat which the Misses Berthe and Francesca Braggiotti and their Denishawn pupils are presenting on Saturday afternoon at "Weld."

Miss Joan Barton is of the group, as are also Miss Lucia Warren, Miss Carol Paine, Miss Helen Hamlin and the trio of Winslow sisters, the Misses Natalie, Theodora and Emilie, whose parents, Rear-Admiral and Mrs. Cameron Winslow, gave such a delightful dance for all three girls last season.

BACK from their trip to the coast are Mr. and Mrs. Walter H. Seavey and their daughter, Miss Eleanor Seavey.

The family is already domiciled for the season at "Foxcroft," the Seavey place at Hamilton, where they generally make a long season of it.

Apropos of Hamilton, members of that sport-loving colony are considerably interested in the nuptials of Miss Anna Agassiz and Gordon Prince to be solemnized on Sunday in Hamilton.

Eleanor Seavey

Mr. Prince, who is well-known as a steeplechase rider, recently gave his bachelor dinner for twenty-four of his intimates at the Myopia Hunt Club. For several seasons Mr. Prince has been making the club his headquarters during the Summer months, and he is one of the best known sportsmen along the Shore.

Society Notes

MRS. LOUIS A. FROTHINGHAM has arrived in New York, where she is stopping at the Ritz-Carlton.

Mrs. Henry B. Endicott will occupy for another season Miss Fannie P. Mason's house at Beverly Cove.

The Hon. John Francis A. Cecil and Mrs. Cecil (Cornelia Vanderbilt), who are spending their wedding journey abroad, are now in Paris. Miss Rebecca Smith of Boston was a bridesmaid at their marriage on April 29 at Biltmore, N. C.

Mrs. Amory S. Carhart was among the luncheon guests entertained the other day by Mrs. Rawson L. Wood at the Marguery in Gotham.

John Nicholas Brown and Frank W. Mattheson have returned to Providence from a ten-day fishing trip in Maine.

William H. Wellington has leased for another season the Longworth cottage at Pride's Crossing, known as "Skerryvore."

ARNOLD ARBORETUM WALKS ARE PUBLIC

The display of flowered trees and shrubs at the Arnold Arboretum is so remarkably fine this season that the director, Professor C. S. Sargent, has arranged for a free walk with a competent guide for Sunday, Tuesday and Thursday afternoons of each week. Each walk will start at the Forest Hills gate, near the Forest Hills station at 3 o'clock.

It is announced that Lilac Sunday will probably be the first day of June.

2 POLICEMEN AWAIT DECISION OF BOARD

Policemen Wayland H. Blanding and Francis L. Cotter of Station 6, South Boston, are awaiting a decision from the commissioner after a trial showed they had neglected to "ring in."

In addition, Cotter is charged with entering a "soft drink" emporium, not on official business. The place has been under surveillance for some time on suspicion that something stronger than tonic passes over the counter. Cotter says he was in there "after a fugitive from justice."

STUDENTS DEMAND JEWS BE DISSECTED

Budapest, May 21.—Jew-baiting was revived at Budapest University under extraordinary circumstances. While Professor Bugarszky was lecturing on anatomy, students demanded that four of his Jewish auditors be killed on the spot for dissection, and attacked them.

The students declared that only the bodies of Christians were submitted for anatomical study, as the Jews buried their poor dead.

Professor Bugarszky called attendants, who helped the four students to escape.

TENNIS is good exercise and good fun if you have all the things you need to play with.

RACKETS are priced at from $2 to $16.00. A very good one can be had for $6.50. Light, medium, or heavy weight. Made of white ash, reinforced with elm. Extra center stringing, good quality gut.

ANOTHER easy for ladies to hold has a small round handle. $5.00.

GUT PRESERVATIVE should be used as soon as you finish playing. Helps racket to last longer. With brush and box, 35 cents a box.

COVER YOUR RACKET when not in use with a waterproof cover. 50 cents. Covers the head only, and keeps strings from snapping.

A KHAKI COVER for the entire racket is $1.00. With pocket for balls, $1.25. Green, blue, brown rubberized fabric. Neat. Handy.

A PRESS keeps the racket in good condition. The $1.00 kind is good, but the $2.75 one is easier to take on and off and cover comes fastened to it. When you put on the cover, you have to adjust the press, and both are good for the racket. With pocket for 3 balls. It is a cross press and gives greater protection from warping, too.

OTHER PRESSES sell for $1.75. Spec'al finish.

RUBBER GRIP for handles takes the place of adhesive tape, which is not so neat. 65 cents. Brown, with white trim. Good to use if the handle gets too slick.

AN EYE SHADE of green felt protects your eyes from the glare of sun and light. 75 cents. White lining in band that fastens at back of head.

A HANDKERCHIEF SWEAT BAND is made for players who wear eyeglasses. 50 cents.

WATERPROOF STRINGING is good on foggy or damp days. Experts restring your racket. Oriental gut, $2.00. Other qualities, from $3.00 to $6.00, which is a specially selected lambs' gut for tournament play. We'll tell you where to send your old racket to be restrung.

DOUBLE COURT NETS sell for $6.00, up to $25.00. $6.00 one is 42 feet, 15 thread, 3 feet high. Bound.

SINGLE COURT NETS without binding at top, 27 feet, 12 thread, sell for $3.50. A 36 foot one, 15 thread, is bound at the top and sells for $5.00.

PRESBYTERIANS TO RENEW WAR ON DR. FOSDICK

Bryan, Who Started Fundamentalist Battle Last Year, to Be on the Job Again

Grand Rapids, Mich., May 21. (A. P.)—Nine hundred and sixty commissioners charged with disposal of temporal and doctrinal problems of a great Protestant denomination gathered here today for the opening tomorrow of the 136th General Assembly of the Presbyterian Church in the United States.

One of the probable storm centers of the assembly—Dr. Harry Emerson Fosdick of New York—will not attend the gathering, but his supporters and critics, the latter including William Jennings Bryan, are expected to renew the controversy that rocked last year's general assembly at Indianapolis.

The Fosdick dispute grew from a sermon, "Shall the Fundamentalists Win?" delivered by Dr. Fosdick, who is an ordained Baptist minister, holding pastorate of the First Presbyterian Church, New York.

Election of a moderator to succeed Dr. Charles F. Wishart, president of Wooster College, is the outstanding business of the opening day. Although a score of possibilities have been mentioned, the names of Dr. Clarence E. Macartney, Philadelphia, William Jennings Bryan, Miami, Fla., and Rev. Charles E. Erdman, Princeton, N. J., were most frequently heard today.

Dr. Macartney at the last assembly introduced the resolution demanding Dr. Fosdick's removal from the New York pulpit for alleged heresies. Bryan was defeated for the moderatorship last year after being within a few votes of victory on the first two ballots.

1,000,000 OUT OF WORK IN GERMANY

Essen, Germany, May 21.—The situation brought about by the miners' conflict is rapidly approaching a social catastrophe. Besides 600,000 locked-out miners, about 400,000 metal workers are without work, owing to the closing of the plants.

The city and communal administrations in many cases have been compelled to supply the wives and children of the unemployed with the necessities of life.

SEEK FREEDOM OF DE VALERA IN DUBLIN

Continued Imprisonment May Lead to Force on Part of Republicans

Dublin, May 21.—The continued imprisonment of DeValera, Austin Stack and other Republican leaders is bitterly condemned by the Republicans, and among the loudest in protest are men who have themselves been released from prison while still declaring their allegiance to De Valera and the Republic.

It was supposed that pledges had been given for the release of De Valera and the others by Easter, but no such pledge has been admitted or proved.

There is a rumor that the prisoners who are untried are to be released before the tail-teann games early in August. The organizers of the games include many sympathizers with De Valera, and many others who, though averse to his policy, think he should be let out. But the government gives no sign.

So far the Republicans have confined themselves to a verbal protest that the holding of the games while the prisoners are in jail would be a misrepresentation of the true position in Ireland, and they have directed all Republicans at home and abroad to abstain from participation in the sports.

Though this is not expected to have a serious effect on the attendance it is possible that as the date approaches their attitude may stiffen and more active forms of opposition be adopted. This would be an abandonment of the policy of no violence maintained for the past year.

A Buffet Set for $1.40: Select a 14x20 oblong for center and two 10x14 oblongs for sides.

Suggestion for Chairbacks: 12x18 oblongs will be just right for most chairs. 8x12 oblongs will do nicely for the arms.

French Filet Chairbacks (with five little tassels) for eighty-five cents. These are going to be hard to get—and probably higher in price. If you want one, better get it this time; there is small chance of this low price in future. Also, if you want some especial size in the ecru linens described above, come in good season. The sizes are likely to be broken later on.

REFORMED EPISCOPAL CHURCH AT JUBILEE

Philadelphia, May 21.—Clergymen and laymen of the Reformed Episcopal Church met in St. Paul's Church today in celebration of the golden jubilee.

Presiding Bishop Frank Vaughn of London, England, and deputies from India and Canada were also in attendance. The sermon was by Rev. Joseph D. Wilson, one of those present at the first general council of the church fifty years ago.

BAY STATE MAN FOR GAS SERVICE CHARGE

Cleveland, May 21.—Discussion of rate making occupied the forenoon session of the convention of the Natural Gas Association of America today.

Urging adoption of a service charge for gas consumers, H. G. Wells, member of the Massachusetts Public Service Commission, declared that substantially forty States now recognize its principles.

Professor Irving Fisher of Yale spoke this afternoon.

FLIERS HELD AT YETOROFU BY BAD WEATHER

Start for Minato Is Now Tentatively Set for Tomorrow

Tokio, May 21 (A.P.)—The American army aviators flying around the world are being delayed at Hittokappu Bay, Island of Yetorofu, in the Kuriles, by bad weather.

An official dispatch to the Japanese Navy Department, sent from a Japanese destroyer on duty with the flyers at 11 a. m. today, said that the Americans were waiting until the foggy weather clears.

An official dispatch from the American destroyer John D. Ford also on duty with the flyers, to the American embassy, read:

"At Smith's request (Lieutenant Lowell H. Smith is acting commander of the flight), Ford is anchoring temporarily off Kushiro, on the southeast coast of Hokkaido (northernmost of the principal Japanese Islands), to assist the flyers if they are forced to use Kushiro as emergency landing place."

Both the Embassy and the Tokio Central Observatory sent warnings to the flyers to expect bad weather today and Thursday. Storms are reported all along the eastern and northern coast of Japan.

The start of the Americans for Minato, in northern Japan, their next scheduled stop, now is tentatively set for tomorrow, the Japanese dispatch said, but, in view of the bad weather, it is possible their departure may be delayed even more.

Calcutta, May 21 (A.P.)—Stuart MacLaren, the British aviator, who is attempting to fly around the world from London, arrived today at Akyab, Burma.

TOUR BY MISS BOOTH INCLUDES BAY STATE

New York, May 21.—Evangeline Booth, commander of the Salvation Army in the United States, leaves today for a seven-day motor tour of Connecticut and Massachusetts, accompanied by 12 automobiles and two bands. Her purpose is to stimulate interest in the work of the Salvation Army in the two States.

Evangeline Booth

Miss Booth will start her address at South Norwalk, Ct., and will make twenty open-air speeches, finishing at Holyoke, Mass., on Tuesday, May 27. The itinerary is in charge of Colonel William A. McIntyre of Boston.

BURN MORTGAGE IN ROSLINDALE PARISH

The mortgage on the new parish house of the Church of Our Savior (Episcopal), will be burned tonight in the parish house, South street, Roslindale. The land was purchased ten years ago, and was broken by the Wilson, now of Cohasset. May 21 marks the thirty-fifth anniversaary of the church.

Prominent among the guests will be Bishop Lawrence, Bishop Coadjutor Charles L. Slattery, Arch. Deacon Dennen, and the Rev. Charles Chase Wilson.

WRECK VICTIMS TELL OF BATTLE WITH GALE

Sixteen, Including One Woman, Are Saved After Captain and Four Others Perish

Saulte Ste Marie, Mich., May 21 (I.N.S.).—Accounts of the battle with a Lake Superior gale that claimed the lives of their captain and four other shipmates, were told today by sixteen survivors of the steamer Orinoco which foundered Sunday off Montral Island.

Radio dispatches from the tug Gargantua, which answered the signal fires built by the survivors on Montral Island, one of whom was a woman, told the story of the wreck.

The Orinoco foundered off Pointe Aux Mines after it had been necessary to cut adrift the barge Chieftain, which the Orinoco had in tow.

The victims of the wreck were Captain Anthony L. Lawrence, Chief Engineer Joseph Wurtz and three seamen.

The survivors told of the fight against the storm, the decision to cut the barge adrift and the fight in the wreckage, and of reaching the island, where a forty-hour vigil was spent before the tug brought relief.

Members of the Gargantua crew provided the survivors with food and warm clothes.

Two bodies were picked up by the tug after cruising around the scene of the wreck. Later the tug found the drifting barge Chieftain and took it in tow.

Mrs. Poole, the woman member of the Orinoco's crew, bore the hardships bravely. She faced the heavy seas on a raft, improvised by some of the men when the steamer sank and was subjected to severe exposure on the island.

Philadelphia Tests Tower Light Guide for Traffic

Philadelphia, May 21. — Director of Public Safety Butler's plan to control all traffic on Broad and Market streets from the tower of City Hall at their intersection has its first tryout today.

A single 300,000,000-candlepower searchlight has been mounted in the tower, overlooking North Broad street, and for an hour it will flash on and off. When the light is on, east and west traffic may move for one minute; when it is off, north and south traffic will have the right of way two minutes.

A similar test of the "two and one" system will be made tonight.

General Butler believes four searchlights, costing $25,000, would make unnecessary the proposed synchronized lighting system for traffic control, which, it had been estimated, would cost the city $500,000.

RUM-RUNNERS TO AVENGE R. I. MURDER

Authorities Fear Slaying of Boyle Will Tear Open Bitter Feud

Providence, May 21.—Word has gone out through the Providence underworld that the murder of Charles E. (Chisel) Boyle is a matter for the great, invisible organization of New England rum-runners to settle among themselves.

The authorities are fearful that the murder of Boyle will lead to reprisals and an open feud between the guards that escort the rum ladened automobiles across the State from Plum Beach and the hijackers that infest the lonely roads.

More than seventy-two hours after the body of the Providence athlete was found, shot riddled, in the brush along the lonely South Wickford road, the police know nothing of what led up to the tragedy.

Two slight clues have been unearthed within the past twenty-four hours. The Worcester police have arrested Louis Naples of No. 30 Pearl street, Worcester, and are holding him for questioning.

The authorities want to know how Naples came by shot-gun wounds from which he is suffering and which forced him to go to the City Hospital for treatment.

Another clue has been furnished by a resident of Hamilton. This man whose name was withheld by the police, declared that early Sunday morning he was awakened by shots.

Looking from his window he saw an automobile truck pursued by a big touring car. Shots were being exchanged and the Hamilton man heard one of the occupants of the car call out that he had been shot.

BANDIT KILLED BY POLICEMAN'S BULLET

New York, May 21.—One of the two highwaymen who held up Walter Rankowitz, Brooklyn business man, in the Elmherst section today was shot to death in a running pistol fight with a policeman notified by a passing motorist. The highwaymen did not know they were under observation until the patrolman had stolen upon them, knocked the gun from the hands of one and collared him. The other took to his heels and the officer opened fire. Herman Manstert, 23, a clerk, was arrested. Half an hour later a pedestrian found the body of the other several blocks away shot through the back.

BRITAIN FIGHTS FOR COTTON SUPREMACY

New York, May 21.—Edward E. Bartlett, Jr., president of the New York Cotton Exchange, said on his return from Europe today that the United States was not fully alive to the efforts being made by Great Britain to gain the cotton supremacy of the world.

Emphasizing the seriousness of the boll weevil, Mr. Bartlett advocated immediate attention by private interests and the government to insure heavy production. Should prices continue high, Britain would do her own producing, he asserted, and America would lose a valuable cotton customer.

FILENE'S PRIZE PLAN HIT BY GERMAN PAPER

Hamburg, May 21.—The leading Nationalist organ here, the Hamburger Nachrichten, has attacked the prize competition under the offer of Edward A. Filene of Boston for a thesis on the question how best to obtain peace and conserve prosperity among the European nations.

This paper declined to publish the details of the contest on the ground that it would mean aiding a movement practically aiming at a new confession of guilt by Germany.

$1,083,334 Rockefeller Gift

New York, May 21.—A gift of $1,083,334 from John D. Rockefeller, Jr., to the Union Theological Seminary was announced today by Dr. W. M. Kingsley, president of the directors. He also made public an anonymous contribution of $1,250,000.

Chief Ousted

"SHOOTING JACK"

Former Chief Hayes of Beverly police has been ousted from his position.

SHOOTING CHIEF HAYES RESIGNED UNDER FIRE

"Lightning Jack" Hayes, two-gun chief of police of Beverly, has quit under fire.

At the height of the grand-jury probe into the activities of the Beverly police department and certain elements connected with the so-called "high-life" of that section, Chief Hayes voluntarily gave up office. He has presented his resignation to Mayor George H. Whittemore, to become effective on Thursday and the resignation has been accepted.

SUPPORTED BY MAYOR

Hayes, whose chief claim to distinction grew out of the manner in which he "shot-up" a boy and girl, high school students from Lynn, has been under fire for months.

Following his conviction in court on the charge of assault on the high school students with a dangerous weapon, his attorneys appealed the verdict and the motions have not yet been acted upon.

Mayor Whittemore stood by the chief and refused to demand his resignation. Other forces became active and the Essex county grand jury probe was finally instituted.

RUM-RUNNING PROBE.

Just what the Grand Jury has learned is not known.

One of the witnesses before the Grand Jury was "Subsy" Sullivan who is very well known in Beverly and vicinity. It is said that when slot machines were seized in a Beverly club these machines ultimately found their way into Sullivan's hands.

Rum running operations through the Kerwood bridge section are also being probed by the Grand Jury, according to District Attorney William G. Clark of Gloucester.

Chief Hayes had little comment to make on his resignation.

"There is a limit to a man's physical ability to stand up under this stuff" was the only statement he would make.

BOOTLEGGES REAP HARVEST IN RUSSIA

Saratov, Russia, May 21.—Bootlegging is continuing unabated throughout this district. During the last three months the authorities have discovered more than 5,000 illicit stills and confiscated 50,000 quarters of home-brewed vodka. Seven thousand indictments have been found against persons engaged in the manufacture and sale of vodka.

DECLARES MEN COPY WOMEN IN STYLES

Paris, May 21.—Men are accused by a woman fashion writer of "servilely following women's fancies" in the matter of attire.

In support of this statement she declares that as soon as women began wearing plaids, men's ties, traditionally sober in hue, assumed "jazz" shades that men would never have dared to display if women had not given them the lead.

INSURGENTS TO CURB POWER OF M. E. BISHOPS

Demand Superintendents Be Elected Rather Than Appointed

Springfield, May 21.—The insurgent group at the Methodist General Conference under leadership of Rev. Dr. Ray Allen, of Rochester, Rev. Charles E. Baker, of Indianapolis, Ind., and Rev. James I. Bartholomew, of Pawtucket, R. I., and Judge John Marshall, of Topeka, Kan., launched a movement today for election of district superintendents.

The superintendents have been appointed by bishops since 1820 and the proposed plan is to have the General Conference adopt resolutions declaring for a return to the plan of electing instead of appointing.

The district superintendents have charge of the churches under direction of the bishops.

A majority of the judiciary committee reported against the legality of such elections but a minority headed by Dr. Allen, recommended the change.

Rev. Josiah W. Abel of Tulsa, Okla., and others representing a minority of the committee on state of the church, recommended a change in the Apostles' Creed by which the words "the holy Catholic Church" would be stricken out and "Christ's Holy Church" substituted.

The present wording is favored by a majority of the committee in a report submitted by Rev. Dr. George Elliot of Pittsburgh, Pa.

Complain of City Yards' Noise

Rumblings of dump carts, with loud talk by workmen at the city yards on South street, Jamaica Plain, are said to have disturbed services in St. Thomas' Church across the street, so that an agitation for relief has been started in that section.

Dr. Eliot on 'Water Wagon' Since 1917, He Tells Critic

Dr. Charles W. Eliot, president emeritus of Old Harvard has confessed.

He's on the "water wagon"—been on since 1917 in fact!

Lest there be any misconstruction of his stand in favor of drastic prohibition Dr. Eliot has made known the fact in a letter to Congressman Celler of New York, an ardent "wet" advocate.

Representative Celler in a recent letter accused the eminent Cambridge educator of playing King Solomon in that he strongly opposed prohibition some twenty years ago, changing front in these late days of strict national aridity.

Dr. Eliot retorted to the effect that 20 years ago he saw the futility of national prohibition as evidenced in the failure of the local option laws.

"Until 1917 I took beer and wine in any company that was using those articles," he wrote.

RICKARD INDICTED IN MOVIE CHARGES

Newark, N. J., May 21. (Universal).—George L. (Tex) Rickard, six other individuals and a corporation are under indictment on charges of transporting the Dempsey - Carpentier fight films from one State to another, contrary to Federal law.

Tex Rickard

Charles J. "Jap" Muma, of New York, who figured prominently in recent Senate investigations at Washington, was among the others indicted.

REBELS CAPTURE ALBANIAN TOWN

Belgrade, May 21.—Trouble has broken out in Northern Albania, according to the Politika. Insurgents are reported to have captured Scutari and several other towns.

A Belgrade dispatch on May 10 reported armed strife in consequence of a conflict between the Albanian government in Tirana and deputies who demanded the capital be transferred to another town.

Another complication is the agitation growing out of the murder by bandits of the two Americans, Robert L. Coleman of San Francisco and George B. De Long of New York. A Rome dispatch last week said that a military dictatorship was believed inevitable.

FRENCH MINISTERS MAY QUIT AT ONCE

Paris, May 21.—The depreciation of the franc is beginning seriously to preoccupy the government, and it is understood to have formed the principal subject of Premier Poincare's talk with President Millerand, as it will that at the cabinet meeting called at the Foreign office today.

Reports are even current that several of the most prominent ministers favor resigning at once and transferring the task of government to the new majority of the left, holding that inactive continuation of office until the first week of June is likely to be extremely prejudicial to the financial situation.

QUINN SAYS HE IS TO BLAME FOR DEFICIT

Cambridge Mayor Intends to Reconstruct Finances on Sound Basis

Mayor Edward W. Quinn of Cambridge has accepted full responsibility for the shortage of $600,000 in the Cambridge city treasury.

Appearing before the Citizens' Taxation Committee at the Board of Trade building, Mayor Quinn declared the revelation of the shortage has already had good results and that when he retires from office the finances will be in sound shape.

"The truth of the matter is that while Cambridge is a $80,000,000 concern, we have had $30,000 of uncollected taxes on our books each year," said the mayor.

"There is no use in me avoiding the issue. I feel that I am responsible. The State audit has shown no dishonesty and one good result has been that citizens have voluntarily paid $150,000 in back taxes during the past few weeks."

A resolution favoring the publication of the names of all poll tax delinquents was adopted by a vote of 70 to 18.

Resolutions calling upon the Mayor to curtail city expenses and favoring the bill now in the legislature providing for a $2 tax levy to make up $300,000 of the shortage in the treasury were adopted.

BIG GARDEN EXHIBIT ON WELD ESTATE

Arrangements are being completed for the annual garden exhibit of the Chestnut Hill Garden Society, which will be held on the estate of Mrs. Charles G. Weld on Goddard avenue, Brookline. Invitations have been extended to the members of the Milton Garden Club, Dedham Garden Club and the North Shore Garden Club to attend the opening meeting on May 27.

The show will be open free to the public May 28 and 29. The committee in charge are Edwin S. Webster, Mr. and Mrs. Ernest B. Dane, Mr. and Mrs. James D. Colt, Mrs. William Ellery, George B. Dike and Thomas Allen.

EVERETT MILK MAN HURT IN RUNAWAY

Patrick Sullivan, employed as a milk wagon driver by City Clerk Joseph Cannell of Everett, was seriously injured at Jackson and Elm streets, Woodlawn, today when the horse he was driving ran away. Sullivan was removed to the Massachusetts General Hospital with a possible fracture of the skull.

Deserted

MRS. HELEN V. W. FAGOT
Former Dorchester stenographer whose Porto Rican husband abandoned her after their marriage, returning to native land. Inspectors from District Attorney Thomas C. O'Brien's office soon to go for Fagot who also must pay $2,000 for expenses of extradition which he fruitlessly fought.

WIFE DESERTER ORDERED TO PAY $2,000

It is going to cost Emilio Fagot, Jr., of Porto Rico about $2,000 for fighting extradition from his native land to Boston on a charge of nonsupport of his bride, a Dorchester girl.

District Attorney O'Brien has ruled that Fagot must pay the expenses of the fight that his office waged successfully to bring Fagot back here for trial. Inspectors of the district attorney's office are about to start for Porto Rico for the second time after the Porto Rican.

The first time that inspectors went there for him, they were obliged to return empty-handed because of the fight against extradition offered by Fagot. The Supreme Court of Porto Rico finally handed down a ruling favoring Massachusetts authorities.

Fagot was a student at a college of business administration here when he married Miss Helen Victoria West, twenty-two-year-old Dorchester stenographer. After he finished his course, he returned to Porto Rico, leaving his bride behind.

TRAIN HITS TRUCK, CONDUCTOR HURT

Framingham, May 21.—George McGuinness of Providence, a railroad freight conductor, was fatally injured here when he was thrown headlong against the side of the caboose by the impact of his backing train crashing into an automobile truck. The truck driver, Olvilla La Plant, of Woonsocket, R. I., was injured.

EXPRESS RATES CUT 10 P.C. ON FOODS

Washington, May 21.—The Interstate Commerce Commission ordered a 10 per cent. reduction in the express rates on fruit, berries, vegetables, butter and eggs, when shipped in carloads. The order was an amendment to an order on November 10, 1923, which reduced express rates on food articles 10 per cent.

WOMAN SENDS BIG SALMON TO "CAL"

Bangor, Me., May 21.—A salmon weighing 20 pounds was shipped to Presiden Coolidge in Washington as a gift from Mrs. Albert R. Whittier of Boston, formerly of Bangor. The salmon was caught at the Bangor pool by Adolph Fischer of Bongor.

5,000 AT RITES FOR MOTHER OF GOV. SMITH

Police Reserves Out to Curb the Throng Storming Church for Service

New York, May 21.—Police reserves were called out today to handle the crowd of 5,000 persons who gathered to attend the funeral of Mrs. Catherine Smith, mother of Gov. Alfred E. Smith of New York.

Three thousand persons crowded into the Church of the Assumption in Brooklyn where funeral services were held. Late arrivals to the number of 2,000 or more vainly sought to edge, crowd or push their way into the already overfilled church.

The funeral procession left the home of Mrs. John Glynn, daughter of Mrs. Smith and was made up of 90 automobiles.

Scores of officials, including Governor Silzer of New Jersey, Lieutenant-Governor George R. Lunn, Mayor Hague of Jersey City and Mayor Hyland attended.

Cardinal Hayes, an old-time friend, who spent his boyhood days in the East Side neighborhood where Mrs. Smith lived the greater part of her life, pronounced the absolution, at his own request.

The high mass of requiem was celebrated by the pastor, Rev. William B. Farrell. Eight of Mrs. Smith's ten grandsons were pallbearer.

Granted Divorces

TESTIFY IN COURT

Mrs. George A. Richardson of Watertown, at top, accused her husband of desertion. Mrs. Mary Pettee of Medford, at bottom, alleged her husband pulled her out of bed, when she was ill, to get his breakfast.

HUBBY GOES TO MOTHER, WIFE GETS DIVORCE

George A. Richardson of Watertown went "home to mother" and failed to return, according to the testimony of his wife, given in Middlesex Superior Divorce Court before Judge Lawton.

She was granted a decree on a charge of desertion. She said that her husband thought he could get better treatment with his mother than with his wife.

Mrs. Mary Pettee of Medford said that her husband thought he could travel around like an unmarried man and failed to go to work. Once, she said, he pulled her out of bed to make her get his breakfast when she was ill. She was also granted a divorce.

"Don't wait supper for me Mother —"

"Yes, I have to work again tonight.—I don't know how late I'll be.—No, it isn't that there's too much to do; the work just seems to go slowly. The light is bad and I can't see my notes, and I make mistakes and have to go back."

THE stenographer is blamed for slowness and for mistakes. The office manager hasn't discovered, yet, that the light is to blame. But when he modernizes his office lighting he'll see the difference that good light makes in everyone's work and disposition.

There is the same difference between good office lighting and poor office lighting that there is between a bright day and a dull day. Let us send you information about the Trojan Office Unit which fills your office with sunlight's best substitute, but gives no glare and casts no dark shadows. It is inexpensive, and you can pay for it with your monthly light bills. Send your name, or phone, today to

MAY SHIP CRUDE RUBBER VIA BOSTON

Thirty Representatives of Big Companies Are Shown Port's Facilities for Handling It

Shipments of crude rubber through the port of Boston to the leading rubber industries in the United States, particularly to the great automobile tire factories in the Middle States, are expected to follow a visit here today of representatives of the thirty biggest rubber companies in the country.

The rubber men were guests of the Maritime Association of the Boston Chamber of Commerce and were entertained by Manager Frank S. Davis and other prominent Boston men.

They were taken by the tug Juno from the Army Base to all of the principal steamship terminals and told that rubber could be landed in Boston and delivered to midland factories before the ship that brought it reached New York, where most of the crude rubber is now taken.

The rubber shipments by leaving the ship at Boston would be loaded directly into cars and avoid the cumbersome lighterage system of New York Harbor.

Manager Davis announced that Boston would hold a World's Rubber and Tropical Products Exposition in the week of October 10 to 17, 1925.

After the harbor trip the party called on Governor Cox and Mayor Curley and lunched at the Country Club in Brookline.

Among those who acted as hosts were Gerrit Fort, vice-president of the Boston & Maine Railroad; Charles E. Spencer, Jr., vice-president of the First National Bank; Alexander Winsor of Kidder, Peabody & Company, and Charles E. Baldwin of the United Shoe Machinery Company.

CAN'T BEAT "TIZ" WHEN FEET HURT

Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz."

When your feet feel like lumps of lead—all tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture.

A few cents buys a box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.

HARRY DUTTON, HUB MERCHANT, DIES SUDDENLY

Head of Houghton and Dutton Co. Stricken With Heart Attack in Home

Harry Dutton, president of Houghton & Dutton Company, died suddenly at his Winter home, No. 195 Bay State road. Though he had been in failing health for time, the end came unexpectedly. The immediate cause was a heart attack.

Harry Dutton

Funeral arrangements are as yet tentative, but the service will probably be held on Friday from his late residence. Interment will be in the family mausoleum, Forestdale Cemetery, Malden.

BORN IN NEW HAMPSHIRE

Harry Dutton was born July 4th, 1856 at Hillsboro, New Hampshire, the son of the late Benjamin F. and Harriet Hatch Dutton. His father and mother were both natives of Hillsboro.

When very young his family moved to Medford where Harry received his early education. He later was graduated from the Worcester Military Academy.

In 1877 Mr. Dutton married Alice M. Houghton, a daughter of the late Samuel S. and Mary C. Houghton. Mrs. Dutton died in 1919.

Three daughters survive, Mrs. Erving P. Morse of Boston, Mrs. A. P. Chase of Medford and Mrs. Arthur W. Morrison, also of Medford, also a half brother George Dutton of Brookline.

ENTERED BUSINESS IN 1873.

In 1872, Mr. Dutton's father, the late Benjamin F. Dutton, entered partnership with the late Samuel S. Houghton and the now well known firm of Houghton & Dutton Company had its beginning. Just a year later, Harry Dutton became identified with the business and remained actively identified with it until his death.

Mr. Dutton was reputed as one of the great merchants of the country and was responsible for many of the advances made in retailing during the past half century. His business sagacity was responsible for many of the things in which Houghton & Dutton Company took the lead and for which they are famous today. Mr. Dutton was the first among Boston merchants to advocate the employment of women as salespeople. He was an early advocate of the motor delivery system.

Mr. Dutton had been president of the company since his father's death in 1915.

FAVOR STATE CALL FOR BIDS ON SUPPLIES

The Joint Committee on Ways and Means and the Committee on State Administration, sitting jointly, today reported "ought to pass" on the bill of Francis X. Coyne of Dorchester requiring the State purchasing agent to advertise for bids in connection with purchase of supplies.

Dancing and Dining News

There is another enlivening bill at Healy's this week, proving that Mr. Healy, who picks his own cabaret, knows what is good for Boston patrons. The special feature is Jack and Lucille Hayes and Francis Feeley, dancing and singing artists who put enthusiasm into their work. For the dancers the Manhattan Society Orchestra provides spirited music.

• • •

The Terrace Gardens is now in full mid-season sway with an unusually attractive program of musical features as well as table service that is unexcelled. This is one of the most attractive of Greater Boston's dining resorts, having spacious quarters, well kept lawns and gardens to hold one's interest.

• • •

The Weber Duck Inn, on the State road at Wrentham, offers unusual and unique entertainment for those who enjoy good dinners and attendant features. There are more than 75,000 live ducks on the farm, ranging all the way to the little fellows just out of the shell up to the full-grown specie that will eventually reach the tables of the Inn. Leon Pini is manager.

• • •

Out on the State road, at Marlboro, the Pine Grove Inn is making life happy for many patrons. Besides good dinners, perfectly served, there are dancing privileges for which good music is always available.

• • •

If you prefer an Oriental atmosphere while you eat there is no more attractive spot in Boston than the Far East restaurant, where both ends of the world meet for food and entertainment. Music for dancing is furnished by an orchestra of Hawaiin musicians.

• • •

One of the popular after-theatre restaurants is the Lorraine, where Manager Bova specializes in both Italian and American menus. Like all good restaurants there is always an opportunity to dance, with an excellent orchestra providing the music.

• • •

The new season at Suntaug, in Lynnfield, on the Newburyport turnpike, is moving forward in good manner. At this beautiful spot in the open country there is not only good food but the best of music for dancing.

• • •

During the present month there are dancing contests at the Boston Arena, at which $1,000 in prizes will be awarded. The judges of the contests, which are limited to four, will be Ned Wayburn, Arthur Murray and Evelyn Hubbell. This is a national affair and is being conducted in other cities this month.

BANKER SCHIFF PRAISES WORK OF BOY SCOUTS

Guest at Luncheon Here Calls Movement Most Effective in Developing Character

Mortimer L. Schiff, vice-president of the national council of the Boy Scouts of America, speaking at a luncheon in Young's Hotel today, classed the scout movement as the most effective agency yet devised to develop boyhood character.

The luncheon, given in honor of Mr. Schiff, who is head of Kuhn, Loeb & Co., New York financiers, was attended by a representative group headed by Governor Cox and Mayor Curley. James J. Storrow presided.

"I have been very much interested in the Boy Scout movement ever since its inception," said Mr. Schiff, "because I believe it is the most effective agency which has yet been devised to develop character in the growing boyhood of the nation and to train it into sound citizenship.

"It is to the cause of loyalty and unselfish citizenship, of the development of real character and of high ideals applied to every-day existence that scoutting is dedicated.

"It is because this is the case that I believe that one of the really great contributions that can be made to the conservation and development of the nation's greatest asset—its boyhood—is by supporting the Boy Scout movement and by enabling it to reach the largest possible number of boys."

IDENTIFY "POL" IN CHICAGO BEER RAID

Chicago, May 21.—Identification of James Casey, one of 31 alleged beer runners arrested in a raid Monday as they prepared to send out 13 truckloads of beer from the Sieben Brewery, as Daniel O'Connor, political lieutenant has been announced by the police.

O'Connor, former secretary to William F. O'Connell, who directed the McAdoo primary fight in Illinois, formerly was connected with the City Treasurer's office. His identity, the police said, was established by a notebook found after the raid. The book contained the names of prominent businessmen and policemen with accounts of removals and sales of beer.

Lift Out Your Corns

ICE-MINT

THE NEW DISCOVERY ENDS ALL

Foot Troubles

This new discovery, made from a Japanese product, is certainly a wonder the way it draws out inflammation from a pair of swollen, burning, aching feet. It takes the soreness right out, then the corn or callous shrivels and lifts off.

Hard corns, soft corns or corns between the toes, just shrivel up and lift off so easy. It is wonderful. Just think! Not one bit of pain while applying Ice-mint or afterwards. It doesn't even irritate the surrounding skin.

You will never have to cut a corn again and run the risk of blood poison. Say good-by to your old corn salve, plasters and bundling tape for that pet corn of yours is sure to be a "goner" if it ever feels the magic touch of Ice-mint.

It imparts such a delightful, soothing, cooling feeling to the feet that you will sigh with relief.

Ice-mint is the real Japanese secret for fine, healthy little feet. It prevents foot odors and keeps them sweet and comfortable. It is greatly appreciated by women who wear high heel shoes.

Just ask in any drug store for a little Ice-mint and give your poor, suffering, tired, swollen feet the treat of their lives. It costs little and there is nothing better.

ICE-MINT

BOSTON GIRL NAMED AS KIDNAPER

Missing Hyde Park Blonde Involved in Athol Case by Police

Boston police believe that the blonde, bobbed-hair girl, who accompanied "Clark Earle" when he kidnaped three-year-old Olive Grant of Athol, is a missing 16-year-old Hyde Park girl.

The description of the girl whom Earle introduced as his wife to his erstwhile fiancee, Mrs. William Grant of Athol, and her husband tallies, the police say, with that of Anita Kurowsky of No. 5 Sefton street, Hyde Park, who disappeared April 18.

The girl's parents have received letters from her telling of her sojourns with Earle. Before she departed from home, the parents, Mr. and Mrs. Frank Kurowsky declared she had dropped hints of her intended elopement and declared it would wind up at the altar.

The parents declare they had protested Earle's friendship for their daughter, but in vain. The couple had planned an elopement for New Year's eve, they said, but these plans were marred by the sentencing of Earle to jail for 60 days on a bad check charge.

Earle and his "wife," after spending a short time as guests of the Grants in Athol, obtained permission of the latter to take the child to New York with them, promising to "tog her out" in new clothes and bring her back in a few days.

Her Baby Stolen

MRS. GRACE GRANT.

Clark is wanted in Boston and other cities for alleged forgery. His real name, the Boston police say, is James H. Hewitt. One of the victims of his forgeries, it is alleged, was his aunt, Mrs. Helen G. French of No. 90 Josephine avenue, Somerville.

It is charged he forged her name to a check for $100 which he cashed at the Bank of Scotia, Washington street.

He was to appear in Superior Court Tuesday on charges of passing worthless checks on merchants in Brighton and Mattapan. When he failed to appear, a default warrant was issued for his arrest.

D'OISY OFFERED NEW PLANE FOR TOKIO HOP

Paris, May 21 (I.N.S.)—The French Ministry of Aviation today consented to send a new airplane to Shanghai if Lieutenant Pelletier D'Oisy, French long distance flyer, wishes to continue his air journey to Tokio.

D'Oisy's machine was damaged beyond repair while he was making a landing at Shanghai Tuesday afternoon, making it impossible for him to continue his flight.

Officials of the Ministry of Aviation said that D'Oisy attained his objective when he reached Hanoi, in Indo-China.

Flynn Says Boston American Did Invaluable Work for the Bonus

Providence, R. I., May 21.—Governor William S. Flynn issued a statement praising the Boston American for its work in securing the passage of the bonus bill. The statement follows:

"I have been for the World War Veterans' bonus first, last and all the time, and I am heartily glad it has been passed, even if it had to be passed over the veto of the President.

PLAIN DUTY.

"To my mind the courage of the senators who did not hesitate to register themselves against the expressed opposition of Mr. Coolidge to the bonus measure deserves not only all the approval and commendation of members of the American Legion Veterans of Foreign Wars, and veterans not members of this organization, but should be commended by all patriotic Americans.

"As in the case of the Civil War and the Spanish American War, our country has accomplished an act of plain justice to its overseas fighters which, if it had not been done, would have been contrary to all our traditions.

PRAISES AMERICAN.

"Not less important in this matter by way of the strength and influence brought to bear on members of the Senate and House of Representatives at Washington, to see that this measure was made law, is the invaluable work accomplished by such a reputable newspaper in New England as the Boston American, which has from the first, uncompromisingly insisted that men who risked their lives for the preservation of the world democracy, should receive some substantial evidence of their country's appreciation."

TAX REDUCTION IN THE HERRIOT PLAN

Paris, May 21, (I.N.S.)—Edouard Herriot, Socialist and leader of the left bloc which defeated Premier Raymond Poincare in the recent election, arrived from Lyons today to plan the formation of a new cabinet.

He plans to hold a sehies of political conferen cesbefore taking a decisive move towards the formation of a new government. It is expected that the chief features of France's future problem will be:

1.—Reduction of taxes.

2.—Closer and more open relations with England and Italy upon German reparations.

3.—Acquiescence in the Dawes reparation plan.

4.—Announcement of more favorable conditions for the withdrawal of French troops from the Ruhr.

BIG U. S. TRADE GAIN IN LATIN AMERICA

Washington, May 21 (I.N.S.).—In spite of Europe's effort to dislodge the commercial foothold in Latin-America, this country's trade with the Southern nations amounted to $1,743,000,000 last year, an increase of 26 per cent. over 1922.

From Latin-America the United States bought goods valued at $1,049,000,000, principally raw materials and foods, while exports to the South totaled $693,830,000.

Coffee valued at $185,000,000 was this country's heaviest purchase from Latin-America in Qowe.

Latin-American countries took chiefly meat products, other foods and manufactured goods from the United States.

FINDS PATROLMAN ASLEEP ON JOB

There's something peaceful and soothing about an iron foundry, in the quiet of the night — at least Patrolman John Savage of the Dudley street station found it so. John will have a chance to explain why his captain, Richard Fitzgerald, found him snoozing at 3 a. m. today in the foundry office. The captain was on a still hunt for duty shirkers and visited every taxi stand, garage and bakery in his district. Savage was the only victim.

Blanks for Bonus Are Now Being Prepared

WASHINGTON, May 20.—Steps for carrying out the provisions of the soldier bonus act were considered at today's Cabinet meeting, and Secretary Weeks reported that it would be necessary at once to add about a thousand employes to the staff of his department. More will be required later.

The preparation of millions of application blanks to be distributed throughout the country for the convenience of war veterans already has begun, the plan being to send out first those destined for remote parts of the country so that in a general way applications will be ready simultaneously in all sections.

The nucleus of the wartime organization of the Red Cross will be put in motion to help the veterans obtain their compensation. At the request of the War Department, national headquarters of the Red Cross announced today instructions have gone to the various divisions and chapters to be ready to assist in distributing blank forms and seeing that they are properly filled out. Approximately 5,000,000 blanks will be sent to the various divisions.

By this means, it was said, the huge task would be considerably simplified and the work expedited.

POINCARE CALLS HERRIOT INTO CONFERENCE

Paris, May 21 (A.P.)—The fall of the franc is worrying President Millerand and Premier Poincare to such an extent that they resorted today to the extraordinary course of calling in Edouard Herriot and Paul Painleve, leaders of the new majority in the Parliament, to confer with them on the subject as if the men consulted had already become members of the government.

The conference at the Palace lasted nearly two hours. The greatest difficulty met was the phrasing of the declaration to the public which was finally issued as follows:

"On the initiative of the President of the council a meeting was held at the Elysee in the office of the President of the Republic. Mm. Poincare and Francois-Marsal explained to Mm. Herriot and Painleve the financial situation in detail. Mm. Painleve and Herriot affirmed the conviction that a rigorous balancing of the budget is an imperative obligation on any government whatever."

HINTS BOOST IN COAL PRICES IS COMING

Strongly hinting that an advance in coal prices may be expected soon, L. F. Leighton, president of the New England Wholesale Coal Dealers' Association today urged immediate purchase of fuel for Winter use.

Addressing the International Purchasing Agents in convention in Mechanics Building, on "The Fuel Situation," Leighton said:

"Nearly all grades of coal are cheap at today's prices. By July, it seems to me that a large number of buyers will enter the market. What effect, if any, that will have on prices no one can foresee, but one thing seems certain, and that is that the purchasing agent who buys coal during the next few weeks will obtain as low, if not lower, prices than the buyer who waits until mid-summer."

He said also the unions were losing tonnage in the coal fields, about thirty per cent. in the West Virginia fields alone since 1921.

Mayor Curley opened the convention with an address of welcome and urging efficiency and business regulation in the various government departments.

DEATH COMES TO MRS. JESSE WOOLWORTH

Widow of Founder of Five and Ten Cent Stores Succumbs at Glen Cove, L. I., Home

New York, May 21 (I.N.S.).—Mrs. Jesse Woolworth, widow of the founder of the chain of five and ten cent stores, died today at her home at Glen Cove, L. I. She was sixty years old. Her husband, F. W. Woolworth, died five years ago.

Mrs. Woolworth is survived by two daughters, Mrs. Eleanor Donohue, and Mrs. Jessica McCann, both directors of F. W. Woolworth Company, and a granddaughter, Miss Barbara Hutton.

Having been declared incompetent prior to her husband's death, Mrs. Woolworth's estate had been administered since 1919 by a committee consisting of the two daughters and President Parson of the Woolworth Company.

LA FOLLETTE IN FIELD ONLY AS INDEPENDENT

Wisconsin Senator's Aides Say He Will Not Organize a Third Party

By WINDER R. HARRIS.

Washington, May 21. (Universal)—Senator Robert Marion La Follette will run as an independent candidate for President if called upon by the substantial Progressive and Liberal elements of the country.

That is learned from the Senator's personal friends and political aides on the eve of his return from Atlantic City, recuperated and ready to assume the reins and press the fight of the Progressive bloc in Congress against the efforts of Republican leaders to adjourn without passing railroad and farm relief legislation.

NOT A NEW PARTY.

The La Follette generals, in discussing his plans, sharply differentiate betwen a third party and an independent candidacy. They explain that he is not going to make the mistake of Roosevelt in 1912 in trying to organize a new party. This course presents too many obstacles in organization and financing. The preliminary work would be almost too great to hope to accomplish any definite results in the short time remaining before election.

Besides the work and money required, the perfecting of a new party would make necesary the putting out of State and Congressional tickets, with all the obstacles of getting on the ballots. Selections of such candidates obviously might prove embarrassing as well as difficult and leave sore spots to hurt in November.

SEEK LIBERAL AID.

In consenting to run as an independent, all these difficulties and embarrassments would be avoided, it is declared. Senator La Follette merely would permit the predominating liberal elements in the various States to put him and a running mate on the ticket. This would require only the naming of Presidential electors. The fight in each State would be independent of the campaigns in other States, except that the ultimate objective would be the same.

It is pointed out that by following this method it would not even be necessary to run the risk of a controversy by trying to get all the factions together on a national platform. Senator La Follette's name and what he is known to stand for, his chief supporters assert, would constitute a platform in themselves.

There is only one thing that could upset this plan, according to those conversant with La Follette's attitude, and that is the naming of a strongly Progressive candidate by the Democrats.

POLAND STIRRED BY RUSSIAN BORDER RAIDS

Twenty Killed or Wounded in Latest Attack, Cabinet Issues Protection Orders

Warsaw, May 21.—All Poland is aroused in consequence of dispatches from the eastern regions stating that a robber band, numbering 100 well-armed men, two days ago passed near the Soviet frontier and pillaged the village of Krzwicze, 18 miles front he border, killing or wounding some twenty of the inhabitans, among them the church pastor.

The robbers cut the telephone and telegraph wires and ascaped back into Russia.

The local post of five policemen defended the village bravely, losing two killed. They inflicted some casualties upon the robbers, who were forced to carry wounded with them on their return journey.

Reports of attacks by Soviet and Lithuanian bands upon Polish villages have increased monthly. In January there were three, in February, six, March, twelve, April, twenty-six and for the first half of this month, twenty.

Owing to the impossibility of assuring protection for the borderlands with the existing police forces the Cabinet has instructed General Rydzmigly, army inspector in the Vilna region, to co-operate with the police until the border posts are reinforced.

MARCINO TRIAL IS ON, MOTIONS OVERRULED

Worcester, Mass., May 21.—Judge Frederick T. Broadhurst, in Superior Court today, overruled all motions to prevent a State trial of Joseph B. Marcino, who is serving a term in the Atlanta Federal penitentiary for wrecking the Warren National Bank.

The court ordered the trial of Marcino, with Frank L. Taylor and Abraham Goldman, who were indicted with him, to go on.

Counsel for Marco and Goldman waived the reading of the indictments and they stood mute, while Judge Broadhurst ordered pleas of not guilty to be entered.

Taylor pleaded guilty to charges of conspiracy and being an accessory before the fact. The jury to try the case was impanelled in ten minutes, Marcino challenging only two veniremen and Goldman one.

MAINE PEOPLE GET BIG CANNING PLANT

Lubec, Me., May 21.—For the fourth time in the history of the sardine packing industry here an outside syndicate has turned back to residents of this vicinity the packing plants of this section. A new company headed by Robert J. Peacock of this town has acquired the property of the Seacoast Canning Company, valued at more than a million dollars.

The property includes seven sardine factories in Lubec, Eastport and Robbinston, a mustard mill, shook mill, fertilizer plant, machine shop, the tug Mary Arnold and a large amount of stock. About 1,500 persons will be employed.

ONE-PIECE BATHING SUITS APPROVED

Reformers who think styles in bathing suits grow worse yearly get little sympathy from Chief Bickford of the Metropolitan police at Nantasket. The chief favors the one-piece bathing suits that have aroused comment, and says he considers them sensible. Scanty one-piece suits will not be tolerated by him, however, and there is an ordinance this season that decrees that the suits must reach to the knee.

WESTMINSTER DUKE TO SELL PAINTINGS

London, May 21.—The Duke of Westminster is to sell at Christie's auction rooms in July several paintings from his valuable collection, some of which may bring figures approaching those he received in recent years for Gainsborough's "Blue Boy," and Reynold's "Mrs. Siddons as the Tragic Muse."

The Duke's collection includes important pictures by Rubens, Rembrandt, Murillo, Cuyp, Wouwerman, Raphael, Teniers, Poussin, Gainsborough, Hogarth and others.

3 "PEACHES" HAND OUT 500 ORANGES

The East helped the West today when Charles E. Devonshire, president of the New England Purchasing Agents' Association, assisted A. Scott Balagh, secretary of the Purchasing Agents' Association of Los Angeles, in distributing 5,000 California oranges at Mechanics' Building. The California oranges were made the more luscious by being given away by three California "peaches."

The national convention of merchants will continue exhibiting their products till Friday.

CAMPBELL RAPS BOARD OF SAFETY

Report Called an "Insult to Legislature"; Lauds Goodwin's Work

The Governor's Public Safety Committee and its report on [illegible] reductions, were attacked by Chester I. Campbell at a legislative hearing today.

Mr. [illegible] of the report [illegible]

[illegible] Legislature with a report that is not [illegible] and with widely separated opinions of what it was intended [illegible]

"We all realize that new laws are [illegible] of lengthy suggestions were made, but were not contained in the report.

LAUDS GOODWIN'S WORK.

"There was a direct report given to the news[illegible] for the ap[illegible] the Registrar by the Governor. Within twenty-four hours this was repudiated because another report had been given to the Governor.

"This showed a divided opinion among the members of the committee, who admitted [illegible] nothing of the bills [illegible] were left to the [illegible] told W[illegible] counsel to the Senate, in a casual [illegible] some of the points [illegible] out.

[illegible] Registrar Frank A. Goodwin is doing everything possible with the present equipment and under the present laws."

Replying to Chairman Charles M. Austin of the joint committee, who continued the hearing from yesterday, Mr. Campbell said he thought automobile dealers should be compelled to see that headlights conformed to the law [illegible]

EAGER TO AID REGISTRAR.

Before Mr. Campbell spoke General Sherburne read a statement from Courtenay Crocker, another member of the Governor's Committee who was unable to be present. In this statement Mr. Crocker reviewed the action of Counsel Dorman in drawing the bills submitted by the committee and said:

"I have been a strong supporter of [illegible] Goodwin and I found in the committee at least of the committee a very prevalent desire to support him in the good work he is doing.

"I am astonished, however, that [illegible] should attempt to cloud the [illegible] issues which must be decided [illegible] in relation to these bills by charging that any member of our committee or any outsider put things in the bill or in the report with a view to benefiting any private individual or corporation.

NAME SPECIAL COMMITTEE.

"[illegible] Goodwin must be taken for what he is. He is a scrapper by nature and is an excellent man for his job, but his willingness to make unfounded charges confirms the belief that he should not be given full and uncontrolled power over the entire management of everything connected with the control of automobiles on the highways."

SAX PLAYER FLEES AS COP FIRES

Somerville Youth Is Later Caught and Held for the Theft of Automobile

Shots were fired, sleeping citizens were aroused and a whole squad of police turned out to see what the row was all about when Patrolman Gus Fitzpatrick pursued a young saxophone player through the streets of Somerville and Cambridge today.

Fitzpatrick was standing on Willow street, near Highland avenue, when he saw an auto coming along. Just before the car reached him it slowed to a stop and a young man jumped out and started running. Fitzpatrick didn't know what it was all about, but started after him. When the young man didn't stop Fitzpatrick fired two shots.

Frank Cronin, former Boston policeman and former prohibition agent, came along in his machine. He picked up the officer and went after the young fellow. In an alley in Cambridge they found him lying flat on the ground trying to hide in the shadows. Beside him was a case containing a saxophone.

The young man gave his name as [illegible] The police say [illegible] appropriated someone's car [illegible] to a Somerville house to play for the evening. He was on his way home to No. 29 Andrews street, Cambridge, when he saw the officer and left the machine. He was turned over to the Cambridge police.

"KING" AND QUEEN IN PLAY AT SIMMONS

COLLEGE STUDENTS PROVE SPRING HAS COME

Sophomores reflect spirit of season of warm sunshine and return of fragrant blooms by presenting Milton's "Comus." Upper picture shows Ruth Morrill of Tacoma, Wash., as the King, and Mary Craig, Plymouth, as the Queen. The lower picture shows the nymphs of the spectacle. From left to right they are: Olive Lake, Gloversville, N. Y.; May Blood, Lancaster, N. H.; Eleanor Enslin, Beverly; Hope Cook, Beverly, and Helen Keith, South Manchester, Ct.

NEWTON BOYS MAY BE GREEN BATTERY

Hanover, N. H., May 21.—A famous Newton High battery will appear against Vermont when Dartmouth takes the field here today in the first of [illegible] scheduled with the Burlington outfit. Lyon is slated to pitch, with Seavey catching. Rus Fox, who proved his right to a place on the team when he substituted for Frankie Smith several weeks ago, will play left field in place of Dagostino, his hitting ability being much greater than that of the regular Green outfielder. Either Fogg or Captain Newton with Ready behind the plate, is the scheduled battery for Coach Keady's outfit.

There were three tied for second honors, Mrs. B. S. Hammer and W. Dillon, Mrs. C. F. Eaton and L. S. Paton, and Miss Elizabeth Gordon and A. M. Hoxie. Their figures were 88. [illegible] two others in the field of over fifty couple broke 90. One of them was J. P. Guilford, paired with Mrs. [illegible] E. Ireland. The other honors fell to a pair from the [illegible] Miss Ruth Batchelder and [illegible]

The [illegible] for qualifying in the first sixteen was 93. Four tied for three places, and a play off is necessary which starts at 1.30. Generally speaking there are few on the outside looking in who were expected to be among the first sixteen. An exception is Francis Ouimet and Miss Lillian Morrill. Three sixteens have been made up for the next three days' play, with one round each day scheduled.

Sport Editorial

By CILL

Everybody up for the Red Sox. Go out to Fenway Park and cheer them along.

They have brought real baseball back to Boston, once the greatest city of them all. They are fighting the champion Yankees for first place.

They have proved themselves a brilliant and courageous ball club. The old spirit of the Bill Carrigan days is back, the spirit that hung pennants on our flagpoles. The team isn't just a flash. It has battled through five weeks of a campaign. That length of time is a real test.

These Red Sox deserve the finest kind of support. They are playing the finest kind of baseball. And they will continue to play it. They may not win a pennant, but they will not finish in the cellar, as recent Red Sox teams have.

Whether they win or lose, the boys fight every game out; they never quit. They knock that old baseball around as few teams seldom have. They can make any afternoon a complete and howling success.

They're for Boston, and Boston should be for them. A miracle start may mean a miracle finish. A little encouragement, and the Red Sox may get that strange impetus that often wrecks the "dope" and gives the game its real hold on red blooded citizens. Go out to the Fenway and cheer them along.

PITCHING PROBLEM FOR EAGLE UNANSWERED

Mullowney or McCrehan against Holy Cross? That is the important question, the answer to which Boston College fans and followers are trying to figure out. The Memorial Day game with the Purple at Worcester is only ten days away, and one of these men will seek to out-twirl Ownie Carroll on the holiday.

Eddie Mullowney, sophomore [illegible] this year at the Heights, is the brother of Harry Mullowney, captain of last year's champions [illegible] "Mull," or "Zero" as he is called, has hung up five scalps so far this season, and will try to add another when he twirls against Yale.

Mullowney opened the season exceptionally well for B. C., pitching seven innings against Northeastern without allowing a hit or run. McCrehan, who mounted the mound in the eighth, allowed but one hit, a lusty triple, but kept Brooks, the donor, at third.

From then on Mullowney alternated in the box with Frank McCrehan, who rose to fame by winning the second game in some thirty years over Holy Cross last June. He has victories over West Point, Villa Nova, Tufts and Williams.

McCrehan, who will probably be used this Saturday against Vermont up in Burlington, has won four games, downing Vermont early in the year, Villa Nova, Colby and Penn State.

Hendriksen must choose between these two men in announcing his Worcester batteries. Both have done excellent work, far better than the remaining members of the Eagle pitching sextet, but one must be chosen. Mullowney or McCrehan? Which will it be?

WILLIE LEWIS TAUGHT GOLDSTEIN HOW TO K. O. RING RIVALS

CHAMPION RELIES ON WALLOP

By JACK CONWAY

Willie Lewis' famous one, two punch, which was a terror to Georges Carpentier, Stanley Ketchel, Frank Klaus, Honey Mellody, Jimmy Gardner, Cyclone Thompson and Mike Gibbons more than a decade ago, is what made Abe Attell Goldstein world's bantamweight champion.

Before Lewis became manager of Goldstein, the latter was a successful boxer but not a spectacular one. He won his contests on points but [illegible] from Jack [illegible], Luis Firpo and other [illegible].

Lewis [illegible] on Goldstein [illegible] feature [illegible] Lewis [illegible] Willie [illegible] stepped [illegible] knowledge of [illegible] and above [illegible].

"[illegible] Goldstein a world's champion [illegible] teaching him how to [illegible]," said Lewis.

LEWIS MADE CARPENTIER A FINISHED FIGHTER

Abe [illegible] Lewis [illegible] back. He also knew Willie's wonderful record as a fighting man. He read how Lewis had defeated Carpentier and then proclaimed the Frenchman a coming [illegible] New Yorker [illegible] was able [illegible] world's greatest [illegible]

[illegible] Goldstein induced Lewis [illegible] manager and [illegible] great [illegible] he [illegible] mastered Lewis' [illegible] one [illegible] hand [illegible] for the jaw [illegible] crashes to the jaw or body.

F[illegible] came a decisive victory over Joe Burman of Chicago, one of the heaviest hitters in the bantam weight division. Then Joe Lynch [illegible] the power of Goldstein's blows.

Lewis has so much confidence in Goldstein's punching power that he believes the bantamweight champion can also defeat Johnny Dundee, featherweight title holder.

"Dundee would never be able to stand up under Goldstein's heavy wallops," declared Lewis. "The old one-two punch would settle the fate of the Scotch Wop.

"This one-two punch is effective when the second blow crashes over a second or so after the first one. Dempsey uses the one-two sock in knocking out his rivals. He starts his opponents on the way out of the picture with a left hook to the jaw and, as his rival begins to fall, a right hand punch ends things."

SAYS PRESENT DAY RING MEN ARE THE BEST

Asked if present day fighters are the equal of the old-timers, Lewis said:

"The ring stars of today have it on the old-timers. They are as good natural fighters, while they know more about how to train properly. I consider Jack Dempsey a greater fighter than John L. Sullivan or any other heavyweight that ever lived, while there never was a bantamweight who compared with Goldstein."

Boston and New England fans will receive an opportunity to see Goldstein in action when he battles Johnny Sheppard of Woburn, pride of the New England bantamweights in a ten-round bout at the Suffolk A. A.'s show at Mechanics Building on Monday night.

Sheppard has three victories to his credit over Abe Friedman, while in the opinion of most of the fans he defeated Frankie Genaro, America [illegible] champion, at Mechanics Building [illegible] winter. Sheppard, like Goldstein, is a free puncher. He delights in swapping blows with a two-fisted fighter like Goldstein. He has never been known to give an inch of ground to an opponent.

PADDY MINEHAN IS DIRECTING SHEPPARD

MRS. JESSUP WINS AT COUNTRY CLUB

All the matches except one were completed in the second round of singles in the annual open tennis tournament for women at the Country Club, Brookline, yesterday. Light showers fell, but this failed to stop the play.

In the singles Miss Rosamond Newton, Miss Anna Fuller, Miss Margaret Blake, Mrs. N. W. Niles and Mrs. J. D. Corbiere all scored wins in the second round. All except Mrs. Niles' match with Mrs. Walter H. Trumbull, Jr., were decided in straight sets. The Niles-Trumbull contest ran into an extra set, all three being closely contested.

BOSTON BOXER BOWS TO YOUNG STRIBLING

Atlanta, Ga., May 21.—W. L. "Young" Stribling today was proclaimed the conqueror of Dan [illegible], Boston light heavyweight, [illegible] their ten round bout to a decision here last night.

It was an ultra-cautious fight devoid of thrills from the first tap of the bell to the last. Stribling [illegible] points all the way through.

New Hampshire Wins

Durham, N. H., May 20.—The University of New Hampshire baseball [illegible] won its third straight game defeating Massachusetts Aggies today, 5 to 4. The visitors threatened to tie the count in the ninth when they connected for a couple of hits after an error by Nicora, but Emerson retired the side by striking out Richards.

60 BOUTS RUN OFF AT THE NATIONALS

The clinking of milk bottles you heard this morning was caused by sleepy fight fans coming in contact with [illegible] receptacles of the [illegible] as they groped their way to [illegible] after another long session of the national [illegible] at the Arena.

There was plenty of action in the trial bouts, sixty of them, to keep the fans who arrived early awake [illegible]. The boxers from the West coast fought their way to the front ranks and several of the [illegible] should land a championship crown tonight. It looks as if [illegible] will be [illegible] the borders after tonight, as three more [illegible] the [illegible].

RUSSELL HAS TO QUIT AFTER INJURY.

W[illegible] one of the few local boys [illegible] was forced to quit to Ray Fee of San Francisco after the two men [illegible] heads. The [illegible] caused the boxers [illegible] other [illegible] whatever that is and since R[illegible] was unable to go on with the bout Fee was declared the winner.

Ted Bodgett of Lynn lost the decision to Harry Wallach of New York in one of the 1[illegible] pound trials. Wallach pounded the Lynn boy plenty, but Bodgett put up a game battle.

Edward Weatherhead of Harvard was the winner in his bout with Alec Ryder of Philadelphia. The Crimson boxer came from behind and by clean hard hitting, gained the verdict.

MELLO OF LOWELL STANDS UP FOR FINAL.

Al Mello, of Lowell, one of New England's premier boxing stars, slashed his way to victory over Al R[illegible] of the [illegible] Y. M. H. A. Both boxers were greeted with a cheer as they entered the squared ring to do their stuff.

Mello was awarded the verdict by consistent hooking with his left to the head and right hand socks to the body. The Lowell boy will meet a tough nut in Hughey Haggerty of Pittsburgh who will be his opponent in the finals.

HEAVY HITTERS IN 147-POUND CLASS.

In the trials of the 147-pound class P. Baker, United States Army, was given the referee's award over Sam Aronson of New York. It was a terrific bout with both lads punching with both mitts, which was pleasing to the gathering of fans. The set-to was so close that the judges disagreed and it [illegible] to referee Johnny Brassil to pick a winner. The latter selected Baker, a keen and able youth.

On the final night thirty-two bouts will be held in the semi-final and final bouts. The winner of the finals will be declared National Amateur champion and at the same time will be chosen to represent America in the Olympic tournament in France.

On Saturday night, Pasquale Valentini of Milan, Italy, winner of the [illegible] and [illegible] championship of [illegible] will make his American debut in a [illegible] race behind the motors at the Revere [illegible] track. Carman, [illegible] and Wynsdau will be his competitors.

WALKER TO GET $50,000 FROM TENDLER GO

[illegible], May 21.—New records will be established for boxing [illegible] Mickey Walker [illegible] champion [illegible] bout with Lew Tendler [illegible]

The biggest purse paid a boxer for a single bout before was half [illegible] this amount.

It is estimated that the receipts [illegible] will exceed [illegible]. This also will set a new record [illegible]

Another new mark will be set [illegible] Walker and Tendler [illegible] start action. [illegible] mark the first time that a championship contest, with an official decision, was fought in this state. Neither Walker nor Tendler [illegible] have any trouble making the weight limit of 147 pounds at 2 o'clock on the afternoon of the contest.

Advance reservations indicate that more than 5,000 boxing fans will go [illegible] Philadelphia from other cities for the bout. Pennsylvania cities [illegible] arrangements already have been made for the running of special trains from Newark, N. J., and New York city.

RUTH ENLISTS IN NATIONAL GUARD

New York, May 21.—Babe Ruth, star slugger of the Yankees, is a soldier now—a buck private.

He joined the National Guard of New York today, enlisting with the [illegible] Field Artillery for three years. He was sworn in as he stood atop of a gun carriage in Times square. Police reserves had to be called to handle the crowds.

The Babe's enlistment was in response to a National Guard membership drive.

COLLEGE STARS TO COMPETE SATURDAY

Boston College, Bowdoin and Massachusetts Institute of Technology, looked upon as the strongest of the colleges that will compete in the New England Intercollegiate track and field championships at Tech Field, Cambridge, on Friday and Saturday, appear to have a monopoly in the hurdle events. Indeed, their representatives have turned in the best performances of the year, and [illegible] hope to gain points over the other it can be readily seen how important the obstacle races will be.

Coach Jack Ryder of the Eagles has two remarkable timber toppers, Robert V. Merrick and John P. Sullivan, the former being the better [illegible] over the high sticks. Sullivan, who scored in the big intercollegiates at Philadelphia a year ago, after winning the New England title the week before, is expected to repeat.

Merrick is good for better than 16 seconds almost any time he steps on the track for the 120-yard high hurdles, while Sullivan is fast enough to beat 25 seconds over the low barriers at 220 yards, giving the Maroon and Gold what appears on paper to be a sure 10 points. This pair will be backed up by J. J. Mullins in the high hurdles. He may be able to shut out the rest of the Maine champions and the Engineers.

Bowdoin also has a trio of [illegible]. Hardy, who won the 120 yards high hurdle race last year, Littlefield, a recent Magee development, and Lovell, who picked up a point in the low hurdle event in 1923. Littlefield has come fast and is considered better than Hardy, although he was disqualified in the Maine Intercollegiate championships last Saturday for knocking [illegible]. Hardy won the high event, as he finished second [illegible] and over the low sticks, Littlefield was the winner in [illegible] 3-5 seconds, with Lovell [illegible].

There is a feeling at Technology that [illegible] and Ambach will take a lot of beating. They both made a good showing Saturday in the triangular meet, in which Georgetown and West Point were represented.

New York Stock Market Prices Improve Slowly After Making Mixed Start

FORBES' VIEWS ON FINANCE

—By B. C. Forbes—

Atlantic City, May 21.—Are industrial and financial leaders in the Middle West, West and the South closer to the people than leaders are in the East?

Is there more hostile feeling towards capitalists in the East than elsewhere?

If so, what is the reason?

* * *

The huge annual convention of the National Electric Light Association is being held here this week. Invited to talk on "How sound public relations between public utilities and communities can best be developed and maintained," I drew attention to the fact that not one of the first three prize winners [illegible] contest [illegible] from [illegible] the first prize [illegible] Missouri [illegible] second and third prize winners [illegible].

B. C. Forbes

No [illegible] but I emphasized that of the hundreds and hundreds of essays received by the judges, the majority came from the Middle-West and the Far West.

* * *

Admittedly [illegible] are that public utility [illegible] throughout the country have [illegible] stressed themselves more earnestly to earning the good will of the public than have utility leaders in the East.

* * *

What is the explanation?

"Wall Street capitalists" dominate a number of very large utility corporations in the East. Such men have their offices, as a rule, in the financial section of New York. Most of them are rich. They have various irons in the fire. They are very busy men.

Therefore, they live and move and have their being very largely in the financial atmosphere. They do not [illegible] day in day with the [illegible] life of the people. They are not brought into close contact with the average householder or wage earner.

* * *

Utility companies in the Middle West, Far West and South are, generally speaking, [illegible] locally owned and controlled or managed by local citizens. [illegible] in Chicago there is [illegible] contact between leaders and the people than there is in New York. Samuel Insull, for example, [illegible] in Chicago. M[illegible] name is a household word [illegible]. He takes part in [illegible] important activities. He goes out on the firing line and gives the people opportunity to [illegible] acquainted with him. Colonel H. M. Byllesby was also [illegible] and favorably known [illegible] communities where he operated utilities.

* * *

What is the situation in New York? Whereas Insull and Colonel Byllesby were always regarded as the real bosses of their companies, the Consolidated Gas Company in New York is popularly regarded as [illegible] completely by Wall Street [illegible]. Its president [illegible] keeps in the [illegible] more than do leaders [illegible] in other parts of the country.

* * *

The impression most of us have is that [illegible] utility capitalists in the East get into the habit of [illegible] upon [illegible] influence with [illegible] to prevent passage of laws distasteful to them. In other parts of the country the utility companies learned a better way. They made it their business to get on good terms with the public.

* * *

Big business [illegible] high finance capitalists [illegible] must realize that their future depends upon how they succeed [illegible] in earning the good-will of the public. The day is rapidly approaching when that which is condemned by the public will not be allowed to live.

Happily encouraging progress is being made in most parts of the country. I told the convention something about the steps which have proved most fruitful.

The East cannot afford to lag.

CHESAPEAKE & OHIO IS SOLD AT NEW TOP

New York stock market prices improved slowly after making a mixed start. Trading was dull. Chesapeake & Ohio sold at its highest in ten years; later Delaware & Hudson also recorded a peak price for 1924, up 3 points.

There were point or better gains for Atchison, Southern Pacific, Bethlehem Steel, du Pont, Davison, Cuba Cane preferred, General Electric, Gulf States, N. Y. Yellow Cab, Norfolk & Western, U. S. Industrial Alcohol and U. S. Cast Iron Pipe.

Philadelphia & Reading Coal & Iron raised 2 points.

Active trading in common stock of the Chesapeake & Ohio revived reports in the financial district that the Van Sweringen interests were increasing their holdings of the road's stock, which they [illegible] Istanbul.

Seventy-three boxes of gold valued at $545,000 [illegible] arrived on the [illegible] consigned to J. P. Morgan & Co., and 13 boxes valued at [illegible] in sterling to Kuhn, Loeb & Co.

Members of the New York Cotton Exchange will vote next Friday on the question of closing the exchange on May 31 following Memorial Day.

In trading on the Boston Stock Exchange, American Tel. & Tel. one sold at a new 1924 low at 122⅞.

Sugar rose 1⅛. Galveston Houston lost 3½. United Fruit and Mergenthaler yielded a point each, while General Electric rose a point. Telephone and rights were almost the whole Boston market during much of the session.

Delaware & Hudson's Coal Properties May Be Sold

Rumor Delaware & Hudson's coal properties may be sold accounts in part for the rise of the stock in Wall Street.

Coal properties owned by the roads are attracting much attention from Wall Street these days and rumors are afloat that the Delaware & Hudson will, before the end of 1924, follow the lead of the R[illegible] Co., the Lehigh Valley Railroad, the Delaware, Lackawanna & Western Railroad and [illegible] from its railroad property. [illegible] general [illegible] would neither deny nor confirm such reports Tuesday, but today President Loree denied [illegible]

For many years [illegible] has attempted [illegible] definite, or even approximate, valuation upon Delaware & Hudson's coal properties, but always without success. Earnings of the coal properties have never been correctly ascertained. The annual reports of the railroad company throw little light upon this branch of its operations.

In the income account for the year ended December 31, 1923, under the heading of "non-operating income" there appears an item of "dividend income," amounting to $[illegible]. Another, headed "miscellaneous income," amounted to $1,819,466. Which one of these items contains the coal property earnings is a puzzle to Wall Street. Perhaps they both include coal profits.

At the close of 1923 the D. & H. owned [illegible] Hudson Coal Company stock, having a par value of $16,324,250. It also owned 15,000 shares of Northern Coal and Iron Company stock, with a par value of $[illegible]. [illegible] in the balance sheet [illegible] are estimated at $7,641,[illegible]

The only other mention of the coal properties in the 1923 report was in President Loree's remarks. He said:

"The anthracite produced by your affiliated corporations during the year 1923, including the product of washeries, was 9,188,869 long tons, or 11 per cent of the year's total production of all Pennsylvania [illegible] mines and washeries, estimated at 76,667,450 long tons, an increase of 3,785,605 tons, or 85 per cent, over 1922. This large increase was the result of a return to more normal conditions in the industry during the past year. Except for a short interval operations in 1923 continued uninterrupted, as compared with a loss of some five months' production in 1922 on account of the strike of mine employes. The recovery, however, was [illegible] production for 1923 being [illegible] or 10 per cent. below the production of 1921."

HARDWARE TRADE BUYING CAUTIOUS

Hardware Age, in its weekly market summary, will say tomorrow:

"Buyers in the hardware market are holding to the policy of [illegible] which they have been following since early April. Price concessions are reported [illegible] to larger staples. Manufacturers are frankly in the market for orders, but buyers show little inclination to commit themselves beyond thirty to sixty days at the most.

"Retail stocks, generally speaking, are low, jobbers' stocks for the most part are fairly large. Dealers are buying only what they actually need. Collections are reported [illegible] from slow to fair.

"No major price changes are being made, although individual houses are reported to be making concessions on specialties in some seasonable lines."

CORRECT MANNERS

Thanking for Hospitality

DEAR MRS. LEECKMAN: [illegible]

THIS is a good question ... You should first thank the girl's mother, because she is the hostess. Say something ... "Thank you very much, Mrs. Mar... for having me be with you ... I have had such a happy time ... Then you ... I have had a lovely time with you ... Thank you very much for asking me."

The Wedding Veil

DEAR MRS. BEECKMAN: Will you please be so kind ... to inform me ... proper for a bride to wear a ... at ... wedding? ... If so, what should the bridegroom wear?

YES. (2) The correct dress is formal day-time dress: cutaway ... trousers. The only alternative for these clothes is the informal dark blue or black business suit ... [illegible]

EHRAT'S GRATED CHEESE

When the Tuesday bridge club plays right up to five-thirty, and you reach the house just one lap ahead of your husband, try this easy-to-make recipe for dinner.

Separate the whites and yolks of six eggs. To the yolks add six tablespoonsful of milk and heat until creamy. To the whites, add a half teaspoonful salt and whip to a stiff froth. Then pour the beaten yolk mixture into the stiffly beaten whites, and fold in gently. Sprinkle three tablespoonsful of Ehrat's Grated Cheese over the top and fry in butter. When omelet is browned on under side, set in the oven for a minute to finish.

Good cheese adds to ordinary foods a zestful, piquant flavor that makes them appeal particularly to men. Ehrat's Grated Cheese is good cheese, finest imported Italian Cheese, rich and full-flavored. Thousands of women have found cooking with cheese easy and practical since they began using Ehrat's *Grated* Cheese.

"Forty-Four Tempting Ways To Serve Cheese" is an attractive, useful book of recipes that we have prepared for you. Send for your copy—it's FREE.

Dr. Mahoney. [illegible] quent injuries sustained in the home, with the possible exception of cuts. A bottle of iodine is the first [illegible] we should think of. [illegible] iodine when the [illegible] broken in any [illegible] kill infection. [illegible] ever, iodine is not to be taken internally.

Keep a bottle of white vinegar for quick application to burns caused by alkalies [illegible] ash, lime and ammonia. [illegible] the burns with the vinegar.

A 4 per cent. boracic acid solution should be kept on hand for injuries or burns of the eyes. [illegible] solution may be used at any time to wash out the eyes, with very good results accruing.

Aromatic spirits of ammonia is another drug you should have in your kit. Half a teaspoonful in a little water is excellent when you feel a fainting spell coming on. Give it to a person who is just coming out of a faint. It stimulates the heart.

Jamaica ginger is excellent for chills and cramps. Baking soda, a 5 per cent. solution [illegible] for burns from [illegible] soda, mixed in [illegible] makes an excellent ointment for [illegible] burns sustained about the range.

TODAY

Continued from First Page.

will run as an independent Republican unless the Democrats nominate McAdoo, and will not run if McAdoo is nominated.

The reason given is that La Follette [illegible] get the big railroad vote upon which he, La Follette, would count, in an independent campaign.

THE National Association of Manufacturers was told yesterday that labor unions had recently lost 9 per cent. of their membership. Only 20 per cent. of workers that might be in unions belong in them now. That may be, but the 20 per cent. suffice to raise and keep up the salaries of 100 per cent. of the workers, thus building up national prosperity.

IT'S also said that strikes cost the country more than five hundred million dollars a year. That's serious and probably accurate.

Let the prosperous class that weep about the cost of the bonus see if they can't do something to solve the strike problem that costs three times as much as the bonus and more. To maintain a constant industrial civil war costing five billions every ten years in a nation that denounces international war is idiocy. Labor and capital ought to change that.

IN SPITE of bonuses and strikes there is money left. The great telegraph and telephone monopoly will issue 1,500,000 new shares of stock and the people will scramble to pay in the $150,000,000 at the rate of one hundred dollars a share. Ingeniously sold on the instalment plan this stock issue will strengthen a great crowd of stockholders, increasing the company's support among the public.

HERE'S grief for the vegetarians. The juice of raw meat helps consumptives to conquer the disease, gaining weight by rebuilding muscular tissues worn down by tuberculosis.

Dogs, artificially inoculated with consumption, recover when fed on raw meat and die of the disease when fed on vegetables.

FRIENDS of consumptives should not attach TOO much importance to that announcement, but they should realize how much diet has to do in fighting consumption. Vegetarians, idealistic and spiritual, should realize that the human body, especially when weakened by disease, requires the food most easily assimilated, which is MEAT.

Then and Now

When Alexander Graham Bell made the right connection for the first telephone call in 1876, it was considered a miracle. And when an operator succeeds in giving a party the right connection nowadays the performance is unusual enough to warrant almost as much attention.

[illegible] sed Pa. Am I [illegible] over wate?

Of course you are, sed Ma. Fifty or sixty pounds.

That being the case, sed Pa, you are going to see a fat man [illegible] beginning tomorrow morning, sed Pa. I will never [illegible] git so fat that you no [illegible] admire me, sed Pa.

That is the way to speek up, [illegible] sed Ma. I knew you wud reduse if I asked you to, sed Ma.

& how about you? sed Pa.

I will [illegible] with you every [illegible] if you wish it, sed Ma. [illegible] about [illegible] now.

[illegible] sed Pa. You must [illegible] over wate.

[illegible] sed Ma. About how much over wate, sed Ma, [illegible]

About forty or fifty pounds [illegible]

[illegible] sed Ma.

About four or five pounds, sed Pa kind of quick. But that is so littel you wud never notis it, sed Pa. You look pritty good to me, sed Pa.

You [illegible] nerve, didn't you, Pa? I sed.

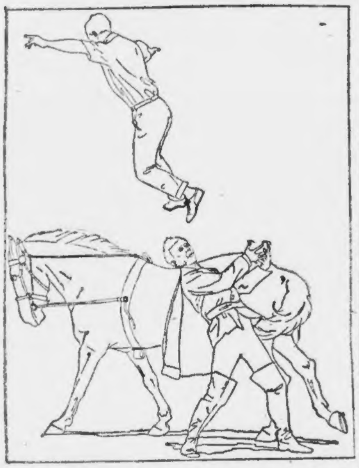
COLOR THESE FOR FREE CIRCUS TICKETS

WNAC, the Shepard stores, and the Boston American are inviting one thousand children to be their guests at the Sells-Floto circus.

The Sells Floto's great circus will be here for one week, starting next Monday.

All you have to do is to cut out the circus drawings that appear on this page. There will be six of them. One will appear each day.

Cut out the drawings. Color them up.



To the one thousand who color these pictures the best we will send free tickets to the circus. These tickets will be good any day except Memorial Day.

Wait until the contest is over before turning in your drawings. The last picture will appear next Saturday. Send them either to WNAC, at the Shepard Stores, Tremont and Winter streets, or to the Circus Editor, Boston American, 80 Summer street.

Listen in to the broadcast of the circus from WNAC on Monday the 26th.

After Boston, the circus will play the following New England cities and towns:

Pittsfield, June 9; North Adams, June 10; Holyoke, June 11; Brattleboro, Vt., June 12; Bellows Falls, Vt., June 13; Keene, N. H., June 16; Greenfield, June 17; Fitchburg, June 18; Lynn, June 19; Gloucester, June 20; Nashua, N. H., June 21. And in turn daily as follows: Manchester, N. The Listener

Did you hear Billy B. Van broadcasting the Harvard-Williams baseball game yesterday afternoon? This well-known comedian tops all records for funny business, when he can feel humorous at a ball game on a rainy day.

Nothing happened at the game that he did not glean some humor from. If nothing funny was going on among the players, he picked on the motorcycle cop. The cop was pretty close to Billy once too, because I heard the "putt-putt" of his engine as he rode by the press stand where the microphone was located.

John Shepard 3rd did the announcing, and appeared to be enjoying things immensely.

The Boston American program was put across in usual good form. William Dodge and his excellent orchestra held my attention for the majority of the time. John Noonan held me for the entire duration of his interesting talk on "The Duties of a Police Reporter." Thought this was rather unusual, as I seldom stay on a talk long after I get the idea of what it is all about.

I listened in last night on a model of the six tube set, which, the radio editor tells me, is the basis of design of the new "American" six tube outfit. I'm not an enthusiast over new sets generally, but this one had me going East for fair. Without either aerial or ground I could [illegible] WNAC, WGI and WBZ.

TICKETS FOR WNAC TEA ALL GONE

There are no more tickets left for the tea and reception to members of the WNAC Women's Club which is scheduled tomorrow.

Every one of the 400 was gone the first day. Both Martha Lee of the Boston American and Jean Sargent of WNAC are very sorry they can't see everyone of the many listeners to their daily morning talks. However, those whose requests for tickets are received too late for this occasion will be entered for the next one, which will be held soon.

Miss Katherine Shepard, Viola Roach, Mrs. William Keith Stewart, Mrs. Frederick Cooke and Miss Mildred Cooke will pour. Music will be furnished by the Minerva Trio, and other friends who broadcast from WNAC will be present.

The reception is scheduled for 3 to 5:30 tomorrow at the WNAC studios.

WHERE TO LOOK FOR ERROR IN SUPERFLEX

By M. A. SIMMONS

The Superflex is not a difficult set to build correctly. The work of experimenting with a large number of parts and a variety of arrangements has been designed to save trouble on the part of fans.

However, there is many a slip 'twixt the cup and the lip, so here are a few hints for you to correct the slips by.

NO SIGNALS.

Open circuit somewhere. Crystal not making contact. Poor tube. Not wired right.

FIRST DIAL DOESN'T TUNE.

Improper wiring. Open circuit on tuning condenser. High resistance in circuit somewhere. Secondary of first unit reversed.

BROAD TUNING.

Inefficient parts. High losses. Crystal not adjusted properly. Partial open circuit. Wrong capacity of by-pass condensers. Not tuned right.

OSCILLATION HOWLS.

Crystal not correct in adjustment. (The crystal must have the proper value of resistance in itself.) The .005 mfd. by-pass condenser too large. Audio transformer, reflex stage, improperly wired. Primary leads reversed. Secondary of second tuning unit leads reversed. Also primary of same unit. (Crystal and reversed leads cause most trouble.)

SECOND DIAL BROAD.

The second dial does not tune as sharply as the first.

DISTORTION AND RASPING.

Wrong by-pass condenser values. Improperly adjusted crystal. Defective audio transformers. Leaks through soldering flux. Defective tubes. Leaky insulation. Loose or dirty contacts. Poor ground connection. Antenna trouble. Run-down B battery. Static. (Disconnect antenna and if noise continues, it is in set.)

NO HIGH WAVE STATIONS.

Tuning condensers not of right value, or not up to rated capacity. Not enough turns of wire on secondary.

WORKS WITHOUT CRYSTAL.

Crystal not sensitive or improperly adjusted. (A crystal is a high resistence device. If contact made to crystal produces too high a resistence it will absorb most of the energy. In this case the tube acts as a detector through the small .00025 mfd. by-pass condenser. Also if the large by-pass condenser does not have enough capacity to pass all the radio frequency currents around the phones, it does not allow the proper amount of current to reach the secondary tuning unit. The size of the two condensers should be changed if results are not right.

GENERAL TROUBLES.

A or B batteries down. Improper soldering. Tube tips not making contact. Poor tubes. Condenser plates touching. Poor insulation or soldering flux used too freely. Moisture absorption on tubes wound on material other than Bakelite, Formica, Condensite, hard rubber or celluloid. Poor phone plug design. A battery leads reverses.

There was a single error which, unfortunately, got by in the published description of the set. In the description of the wiring of the parts for the one-tube model the following suggestion appeared:

"From the stator plates of the first tuning condenser run a wire to the top of the primary on the second coil."

This should read:

"From the plate post of the socket run a wire to the top binding post of the primary on the second coil."

NEW SIX-TUBE SET WILL SURPRISE

The new six tube receiver that has just passed the Boston American tests will surprise you.

The set is contained in a layout 16¼ inches long, eight inches wide and four inches high. This means pretty compact arrangement, yet the wiring and placement of parts are beautiful in their simplicity.

There are two major tuning controls. Two additional controls very the volume. The two major controls are synchronized to within a few degrees of each other.

The tubes used are UV199s. All six of them may be operated on three dry cells for A battery.

A single rheostat controls all six tubes. This, with the potentiometer, controls the volume.

Except for two coils, which may be wound at home, all the parts are standard. The entire set of parts, including coils and drilled panel may be purchased complete if desired.

Tomorrow there will be some big news on the new set, and also a report of the comparative experiments carried on by the Boston American radio staff.

REAL ESTATE

ARLINGTON AND LEXINGTON

Present Year to Be Arlington's Greatest in Home Development

One of the largest developments in Arlington so far this season is that of Brayley & Knowles, who are building sixty two-family homes of the bungalow variety. This operation is located just off Broadway on what for many years was known as the Ramson gardens.

Of these the two-family frame dwelling predominates, there being thirty-eight permits issued last month for the erection of this type of home at an estimated expenditure of approximately $450,000.

Another development of importance in Arlington is that of the Chandler street section, where H. D. McGray, Jr., is building several two-family houses of modern design.

Fair Oaks Development in Lexington Meeting With Tremendous Favor

Fair Oaks, which is only ten miles from the State House, is situated on the State Road in the geographical centre of Lexington. This development occupying Loring Hill is a high and sightly location and is approached by picturesque ascending drives.

The lots are laid out with an average area of about 15,000 square feet of land and no lot has less than a 75-foot frontage. They are suitably restricted to create and maintain an agreeable rural, residential community.

The liberal payment terms upon which these homesites may be purchased is an added inducement. The present owner, Neil McIntosh, No. 294 Washington St., Boston, considers Fair Oaks among the finest of his developments thus far.

YOU and OTHERS

IF YOU HAVE a lot of land in a good locality, free and clear of all incumbrances, and would like to build upon it, let us know; we are builders and have the money to build for you.

The news, entertainment, education, and helpful services have made the Boston American the largest home-delivered newspaper in New England.

BOSTON AMERICAN
Largest Evening Circulation in New England—May 21, 1924

Charity begins at home—read the "Helping Hand" at home tonight and you can begin to help tomorrow.

The Boston American States Its Position in the Matter of the Proposed Edison Light Compromise

The Boston American, which some years ago instituted proceedings to compel the Edison Electric Illuminating Company to lower its rates for electricity, has the following to say with reference to certain recent suggestions of a "compromise" of that controversy:

> This newspaper sincerely trusts that the Edison Electric Illuminating Company, in accordance with its own suggestion, will at once lower the price of electricity for household uses from 9½ cents to 9 cents per kilowatt hour.
>
> The Edison company proclaims its ability, willingness and readiness to make THIS reduction IMMEDIATELY.
>
> The Boston American sees no reason why the company should not do so.

As to the remainder of the compromise program, which provides that the Edison company on December 1, next, will cut the price of electricity in the home to 8½ cents, and one year later will drop that price to 8 cents per kilowatt hour, the Boston American must consult the wishes of its principals.

This newspaper's demand for more reasonable rates for electricity was made not on its own account, but on behalf of the people.

The Boston American's battle for cheaper electricity, entered into by direction of Mr. Hearst, was a fight FOR THE PUBLIC.

The Boston American does not propose to settle SUCH a fight behind closed doors and with the curtains drawn.

The rates charged for electricity in this big city have been, and are, excessive and exorbitant, in comparison with the rates enjoyed by other important communities throughout the country. In our opinion they will REMAIN excessive even when, one year from next December, the company puts its proposed 8-cent scale into operation.

The Edison Electric Illuminating Company enjoys a gigantic monopoly of the electric light and power business in the cities of Boston, Chelsea, Newton, Quincy, Revere, Somerville, Waltham and Woburn, and in the towns of Arlington, Ashland, Bedford, Bellingham, Brookline, Burlington, Canton, Carlisle, Dedham, Dover, Framingham, Holliston, Hopkinton, Lexington, Lincoln, Medfield, Medway, Millis, Milton, Natick, Needham, Norfolk, Norwood, Sharon, Sherborn, Southboro, Stoneham, Sudbury, Wakefield, Walpole, Watertown, Wellesley, West Medford, Weston, Westwood, Weymouth and Winchester, only through the free gift and by tolerance of the PEOPLE of these communities.

If it were not for the franchises given to it by YOU, the Edison Electric Illuminating Company could not proceed with its immensely profitable monopoly ONE SINGLE DAY.

This newspaper, therefore, intends to refer the suggested compromise to you for whom it has been acting as agent, attorney and trustee.

We shall, in other words, take a vote on the subject.

Your views on the Edison compromise will be asked for at an early date. Everyone shall have an opportunity to vote.

Before that vote is taken, great care must be observed to place before the voters the FACTS as to electric light and power rates, as they are seen by the leaders on BOTH sides. The Edison company will be given every opportunity to present its argument for the compromise in these columns, if the company desires to make use of them, without cost.

In the same way, able gentlemen who were associated with the late Grenville S. MacFarland, Esq., in the Boston American's fight on behalf of the people, will be invited to present the case of the petitioners. The Greater Boston "town meeting," on the question of electric rates, will be open to all, as it should be.

The fight waged by the Boston American ALREADY has saved to the consumers of this territory, according to figures made public at the City Hall, no less than $3,500,000.

The reduction in household rates suggested in the compromise offer indicates such further saving to the people, between today and the first day of December, next year, as will bring the total to $5,000,000.

The 8-cent rate, which the Edison company says it will place in operation voluntarily on December 1, 1925, IF the Boston American will withdraw its petition, will represent, in comparison with wartime schedules, a saving of perhaps $6,500,000 ANNUALLY.

Is it enough? Is it FAIR? Does it satisfy YOU, by whose permission the Edison company enjoys exclusive rights in these forty-six communities? Is there any GOOD reason why the Edison company should not put the 8-cent rate into operation NOW?

These are questions which will be answered by the people, themselves.

The battle has been hard-fought. The struggle has been costly. On the indicated figures, as presented above, however, it has been profitable TO THE PEOPLE. The Boston American cannot withdraw from it without consulting THEIR wishes.

Demanding on their own account a reduction of the rates charged for street-lighting, two succeeding administrations at Boston's City Hall, those of Mayor Peters and Mayor Curley, have valiantly engaged in this struggle side by side with the Boston American.

To the City of Boston, the Edison Electric Illuminating Company seems willing to withdraw certain claims against the City, amounting to $600,000, on the understanding that the City, on and after June 1, agrees to pay such rates as may be fixed by the Public Utilities Commission.

If this offer is satisfactory to the elected representatives of the City of Boston the Boston American can see no reason why it should not be accepted.

The representatives of the City have made a good fight, at an estimated cost of $140,000. They know, better than anyone else can know, whether the Edison company's street-lighting offer represents the best terms they are likely to obtain without further tremendous cost.

The other part of the controversy, that represented in the Boston American's demand for cheaper electricity in the home and in the shop, is distinctly different.

That battle CANNOT be compromised, fairly and honorably, without consulting the wishes of those for whom it has been waged.

The Boston American's suggestion today, therefore, is that the Edison Electric Illuminating Company immediately reduce the price of electricity for household and small business purposes from 9½ to 9 cents.

That reduction having been accomplished, the Boston American will proceed to learn the views of its readers with respect to the remainder of the compromise program.

HOW DO WE KNOW THERE IS A SOUL?

By Dr. Frank Crane.

THOMAS EDISON has said:

"My brain is incapable of conceiving such a thing as a soul. I may be in error and man may have a soul, but I simply do not believe it. What a soul may be is beyond my understanding. I should not wish to be understood, however, as denying the existence of a soul. My position is that I have never been convinced."

Thomas Edison is one of the greatest men of this time. He is not only a great doer, he is a great thinker also. Therefore, whatever he says about any subject is worth attention. I wish, however, to point out what seems to me to be an error in his statement as quoted above.

Mr. Edison uses the world "believe" loosely. What he means is that to his mind the balance of probabilities are not in favor of the existence of a soul.

Accurately speaking, belief means the acceptance of something that lies beyond the point of our knowledge. Strictly speaking, we believe only what, in the nature of the case, we cannot know. I believe there is a soul for the same reason that Mr. Edison believes there is such a thing as electricity. I do not know what a soul is and Mr. Edison does not know what electricity is.

He believes in electricity, its functions and powers and laws, for the simple reason that when he acts as if these things were so he gets invariable results.

I believe in the soul, and in its functions, laws and reactions, for exactly the same reason.

No kind of force can ever be known in the same way that we know that two and two are four. But you can measure it, use it, find out the way it acts and depend upon it. This is science. When you go to speculating about what the essential nature of a force may be you are not talking science; you are talking metaphysics.

My "belief" is the soul is not metaphysical; it is scientific.

That is, I assume that there is a soul, I take that as an hypothesis, then I observe how my theory works.

And, to my mind, it works better than any other theory in the explanation of human phenomena.

The hypothesis that man is merely an animal, as a horse or a dog, may explain many things; it accounts for hunger and pain and fear and sex desire and so on.

But the trouble with that theory is that it does not at all account for those phenomena which are most characteristic of man, which indeed occupy most of man's interest and attention. It does not account for poetry, patriotism, art, conscience, literature, nor any of that set of functionings which are the latest product of evolution.

Above all, any other theory than that of the soul fails to account for the most outstanding thing of all, which is Personality.

Of course no one knows what Personality exactly is; but, by the same token, Mr. Edison does not know what electricity exactly is.

I know there are souls because I deal with souls. I know some of the laws of souls, I know the powers and reactions of souls, and, altogether assuming that there are souls, I get certain dependable results.

And that is just exactly the way Mr. Edison knows there is electricity.

YES, TRADE UNIONS ARE ADMIRABLE AND NECESSARY

But Acting Is an Art, Not a Trade, and Actors Do Not Need, and Will Not Thrive Under, Regulations That Bring Prosperity to Bricklayers, for the Actor's Work Is Different From That of the Bricklayer—at Least It Ought to Be Different.

[The actors in New York and elsewhere, many of them, are affiliated with an organization similar in character to a trade union organization. They are said recently to have made, with various managers, contracts compelling the managers to employ in their theatres at least 80 per cent. of actors and actresses belonging to the Actors' Union. Concerning this new and interesting development in stage life, Mr. A. L. Erlanger, the well-known theatre owner and manager, has written an article giving his arguments against such a union. Needless to say the Boston American will be glad to receive an article from the other side written by an authorized representative of the Actors' Union, and will give it publication as conspicuous as that given to Mr. Erlanger's article here.—Editor Boston American.]

By A. L. Erlanger

Some newspapers have announced "a great victory for the Actors' Trade Union." There may have been a great victory for walking delegates, but there has not been any victory, but on the contrary a more or less successful attempt to injure the art of the stage by forcing upon it the methods of the longshoreman, the bricklayer or the hodcarrier.

Nobody has greater respect than I have for a competent mechanic or an industrious laborer, and nobody has better reason than I to know that among actors there are some that lack three qualities—industry, intelligence and conscientiousness—necessary in the making of a good trade union worker. I am also aware of the fact that you can find here and there a theatrical manager lacking other qualities, such as honesty and common sense loyalty to his fellows, that are necessary in successful trade unionism.

I object to the introduction of trade union methods into the art of acting and the business of theatre managing, not that I lack respect for trade unions, but because I know the difference between laying a thousand bricks on a wall or setting a thousand ems on a linotype machine, and reciting a line from Victor Hugo's "Hernani," as Sarah Bernhardt could do it, or interpreting the spirit of American humor as George Cohan can do it.

Trade unions are not new. They are as old as the guilds of the Middle Ages and much older. They are as old as that just strike, when the Hebrews got up and left the Egyptian Pharaoh flat, because they didn't like their hours, their food or their treatment generally.

But because labor unions are necessary in trades, it doesn't follow that trade unions are necessary in ART.

It does not require much intelligence to understand the different conditions under which the actor and the mechanic or laborer produce their best work and render greatest service to the public, which is the object of all work. Rachel could and did develop her genius traveling about with all her family in a van of strolling players. She could not have developed that genius as a working member of the amalgamated garment workers' trade union with a card in her pocket.

In her traveling wagon and her work, thinly clad on an improvised stage, she contracted the consumption that ended her life, but that could not kill her great spirit and genius. In a trade union she would have acquired a mental stagnation that would have made her act as badly as some of our leading "home-made stars."

Good work by a laborer or a mechanic requires regular hours, security, guaranteed employment. The work is done by the body as a means of supplying the body with its necessities.

Acting, painting, writing are different. The work is LIFE ITSELF; it is the food of the spirit, if the actor is really an artist and not a mere money-making machine.

In art, work is everything and it cannot develop under trade union rules or any other hard and fast rules.

I speak against a trade union for actors because I am grateful to the theatre, to the talent of many real actors and to the public. For to them I am indebted for what success I have had in life. I have no selfish interest in promoting or antagonizing an actors' trade union. My success, such as it is, has been achieved. My theatres are built and I own them. So far as I am concerned I would be greatly obliged to anybody, trade union or Justice of the Supreme Court, that would compel me to stop working and rest for my remaining years, instead of driving myself to death as I and other American business fools do, heaven only knows why.

I protest against the idea of submitting actors to a trade union, compelling them to apply for work with a "union card" in their pocket, and depriving of work those that lack the "card," because I believe that the very trade unionism that builds up industry, that gives stability to labor and mechanical skill, would tear down the art of the stage and eventually destroy the very plentiful talent and the rare genius that alone make the stage worth while.

Needs Ice Chest

Editor Helping Hand:

I see an offer of an ice chest by paying the expressage. I have no ice chest and need one badly to keep the baby's milk. If there are no other applicants for it, I would like very much to get it. I have a large family and my income is small so I find it very hard to pay rent and feed seven healthy children. MRS. E. G.

We are sorry but the ice chest has already been given away. Perhaps some other person may have one for you though.

Many Things for Baby

Editor Helping Hand:

I have about 14 baby dresses and shirts, bands, jackets and three pair of baby shoes which I would be glad to give to anyone needing them, if they will call. I also have a baby carriage and bed for a baby from infancy to about fourteen months (Mattress included.) I will express these to anyone needing them.

C. F. MacP.

Thank you indeed. We have asked Mrs. L. W., who lives fairly near you to call for the baby clothes and are sending the address of Mrs. N. C., who is in need of a carriage and crib for her baby.
